2018 Photo Timeline To 1926 a Dissident Press reporting MK-ULTRA and Deaths

[available online as a zip file https://archive.org/download/genoracketeering_202001/StartHereThen2018TimelineHTM.zip and drawn from a chapter of my book and autobiography The Great Treason. https://archive.org/download/genoracketeering_202001/GreatTreason.epub]

How a country treats its dissidents including here in the USA and including those who are witnesses against the "official" accounts of the JFK assassination is what I am writing about and why my life and other lives have been endangered or lost to covert activities silencing these few journalists and witnesses that remain are my topic ofan ongoing threat to my own life and a threat to the truth over coming out once and for all.

I can can not compel by means of law. I can not summon you to a trial or inquiry of subpoena you to a hearing by Congress or a commission.

Jen Moore was a whistle-blower. She knew of the insidious, corrupt, and lavish treachery of our officials and the fruits of their criminal activities that break the laws and reward themselves.

Jen Moore was a former Tracy California police officer and after leaving the force disabled a Master's Degree holder in Psychology. She was asked to participate in and gained access to file she held on the late 1950's Masters and Johnson and CIA connections of Freud and Jung, of MKULTRA and Midnight Climax, CIA history, MKULTRA, the Cold War, WWI and WWII history. And in that strange history isthe assassination of JFK that was led under Allen Dulles. Sh was whistle-blowing some of the darkest secrets the world has ever known that were held by people connected two world wars and the cold war and have controlled our history since and during. Eugenics travels from generation to generation as do family ties to the cold war and now emerging truth about the war between JFK and MKULTRA.

Before her death she was my evidence and advocate. After her August 13, 2018 death I am her evidence in her and our Conspiracy Theory and I am now her advocate. Her death was in the context of threats to kill if she spoke and earlier attempts on her life and my telling the same truths has met violent opposition as well from thug attacks, etc.,

Our journey through the evidence will show Jen Moore identified slush funds rooted in the US DOD and CIA and FBI who uses identity theft and trafficking in an underground world that includes “silencing” and hits on witness to the deep underbelly of the Cabal that now via subversion, criminal rackets, and black opps have targeted with smear campaigns and rippoffs and robberies and assaults open those who would discredit today’s officials by allegation but themselves are smeared, intimidated, harassed, mocked, sometimes assaulted and sometimes killed – If they name too many name about the Deep State.

Listen to and look at some of her video titles as she pointed her camera at my former home.

My use of images (Now we pind out it is a pictograph that helps imagine the information contained or invoked by it.) in this story-line will name the photos and what they represent. Here is what we learn from Vocabulary.com aboug images (a few of the meanings of the word.) : a visual representation of something: such as (1) : a likeness of an object produced on a photographic material (2) : a picture produced on an electronic display (such as a television or computer screen)a : to create a representation of also : to form an image of imaged Jupiter's rings image the bone using X-rays b : to represent symbolically 2 : to call up a mental picture of : IMAGINE 3 : to describe or portray in language especially in a vivid manner 4 a : REFLECT, MIRROR b : to make appear : PROJECT

Other images will show a high power espionage operation tied to the elites in the USA has illegally "targeted" me with a smear campaign, allowed break-ins to my home office live work space, undercover operations falsying rental data in the building management got me evicted and the COINTELRPO system now has me homeless with the public believing the smears and black-listimg me from rentals, car buying, etc,

I have ostracized and smeared and this their is a nexus between the history of my family being told and the reatliatory acts of abuse against Jen Moore, myself, Tom Dunham, Veronica Hoffman, and others including the Kennedy family and investigators of the assasination.

I am not a government official.

Who I am is Edward Paul Donegan. What I do is write books. My autobiography and family of origin and the world we traveled in very simily to St John Hunt and his family of Dorothy Hunt and E. Howard Hunt and ATSUGI Japan in the Cold War with the CIA operations underway their with Lovett Jr., Richard Bissle Jr.,, General Landsdale, Prouty, and others The books are about my life and my family story traveling the word in the 1970s and 1980s with a WWII pilot based (then commercial TWA pilot) middle class family with a secret background for secret reasons.

Writing these books has not been and is not easy. Today I have several advanced and terminal illnesses that were not only preventable but had been brought into remission before a series of events, a smear campaign of the type the FBI runs, made me seem an undesirable and forced out of housing into homelessness as a whisper campaign asked my lease applications be turned down. Included in my books are excerpts of Brian Glick's work *The War At Home* about FBI illegal operations targeting activists and those and many specific FBI and CIA officials are at the center of my books about the cold war and engage in retaliation against me and harassment of me through thugs, ex-con skid ow thugs, and others.

"*One sure window into a person's soul is his reading list*" - Mary Tabor. And from Ed Donegan extending the quote "*One possible look into a politician's soul is the writings of a dissident. One sure look into a Government's soul is how that dissident is treated under the law.*"

There have been many fictions in our public mind; that Lee Harvey Oswald acted alone and was a communist sympathizer (rather than a patsy the CIA, FBI, and others setup and placed at the scene,) that the McMartin Presschool or Boystown Fanklin Nebraska child abuse scandals have been resolved and were not CIA activities, and that the Bush family from Prescott Bush, the Walker family, and other CIA and DOD figures are not Cabal connected.

This single tale told by Jen Moore, Ed DOnegan, and Ted Gunderson now unites and resovles all these frauds on a coherent and complete way. In some cases art mirrors life such as in The Manchurian Candidate 1962 and Jet Pilot and the Rocky Horror Picture Show that is set in the years between 1961 and 1963 at Peter Lawford's Santa Monica home in the shadow of Joseph Kennedy Sr's business RKO Theaters and the events I assert were a Strong Man for Indonesia being prepped by the CIA for a Banana Republic.

The scene is set as rich donors gather for a back tie Democrat Party fundraiser in Santa Monica the conventioneers and the party at the home the attendees are staying at.

This does not rely on how movies like Manchurian Candidate and Rocky Horror are in retrospect erie story lines. The data her is in the files that exist from the Donegan's, Kennedy's, public and Whithouse records, and in Organized Crime ties to blatantly illegal government programs and the hiddden identity of James, Glorian, and Ed Donegan from WWI, WWII, and the Cold War.

If it were as simple as one corrupt landlord or one corrupt trust fund administrator at ARC of Northern Virginia or elsewhere the situation would be more easily remediable but the use of smear campaign and politically motivated fake excuses for all sorts of request of private entities for police cooperation (after a smear campaign has begun that the police are acting under then the police harassment situation has to be won at the level of outing the elite ad corrupt government officials that have such power to order covert illegal programs that have ruined my life and associans and left me homeless as an undesirable. It has been a decades long fight to research my books and write them safely while being harassed and attacked.

Mocking a person as a pedophile or bullying them in any other of a number of ways to get the person blacklisted should be obvious a naked act of retaliation if a person like myself writing books like The United States v. EPD about FBI and DOJ misconduct in an earler arrest of me and in the federal system the case is The People of The Unites States v. the defendent.

While the bullying, blacklisting, and smear campaign needs no more analysis the fabric it exists in here is even more obvious. I like other JFK witnesses find the story we are telling to be a threat to the United States Government and its official both of them complicit in the JKF assassinations. Those who have been attacked by me by illegal programs bullying me are from all parties, genders, and walks of life.

This timeline using supporting witnesses and surviving evidence shows my connection to these events and witness who have been assassinated covertly and attempts on my life and book writing through thug who deny being operatives of the police. This chapter is one chapter of my book The Great Treason and writing that book and some other ones is one chapter of my life. I am a biographer of Ted Gunderson who was assigned to investigation the deaths of JKF and Marilyn Monroe and worked in the field office of Los Angeles as Special Agent In Charge and where RRK was assassinated and he was in the Kennedy administration working under Robert F. Kennedy as an anti-racketeering chief today would be called an Assistant Attorney General if he were DOJ instead of FBI. He (like Jean Hill the last dissenting JKF witness) held now confirmed conspiracy theories through their lives and like myself feared for their lives.

Much of my writing and fitting my life story into the JFK assassination ties to 1958 and Secret War to be conducted under Vice President Nixon through the CIA against Indonesia that Col Fletcher Prouty and Wayne Madsen have written about. Frank Gardiner Wisner (June 23, 1909 – October 29, 1965) was one of the founding officers of the Central Intelligence Agency (CIA) and played a major role in CIA operations throughout the 1950s.

Some of my writing in not only as an observer but as a commentator. Some might suggest de-funding the CIA as Ted Gunderson suggested. But black budget operations are designed to insulate against that. Auditors can not see where money goes to or where it came from. Thus money from the oil companies and other sources can effectively fund CIA operations. I am one who believes a "sin tax" might work on the CIA. The CIA's black budget operations often include drug dealing, arms trafficking with hostile nations merely for the pallets of untraceable cash such deals may produce, infiltration of the media hoping to qualify for Hollywood parties and of course just to feel welcome at them running high priced modeling agencies and funding or being funded by people like Jeffery Epstein and Victoria's Secret models in slush fund illegal operations.

Now more about the CIA.

Wisner began his intelligence career in the Office of Strategic Services in World War II. After the war, he headed the Office of Policy Coordination (OPC), one of the OSS successor organizations, from 1948 to 1950. In 1950, the OPC was placed under the Central Intelligence Agency and renamed the Directorate of Plans. First headed by Allen Dulles, Wisner succeeded Dulles in 1951 when Dulles was named Director of Central Intelligence.

Wisner remained as Deputy Director of Plans (DDP) until September 1958, playing an important role in the early history of the CIA. He suffered a breakdown in 1958, and retired from the Agency in 1962. He committed suicide in 1965.

In July 1947, Bissell was recruited by W. Averell Harriman to run a committee to lobby for an economic recovery plan for Europe. The following year he was appointed as an administrator of the Marshall Plan in Germany and eventually became head of the *Economic Cooperation Administration (ECA)*. Bissell worked with the *Office of Policy Coordination (OPC)* in diverting counterpart funds of the ECA to OPC operations in Europe.[7] Work with CIA - Bissell worked for the *Ford Foundation* for a while but Frank Wisner persuaded him to join the Central Intelligence Agency (CIA).

Vision for the CIA- Bissell delivered an address at the CIA entitled "The Stimulation of Innovation" in 1957 that called for funding the research and development of groundbreaking new technologies for intelligence gathering and surveillance. He acknowledged that such surveillance may entail "gray activities" by the CIA, surveillance that the CIA may not have the legal right to undertake. But he urged that the dubious legal status of such activities should not preclude the CIA from pursuing them. He also advocated that the CIA implement covert political actions in target countries. [That document recomeds scientific TSS methods.

Did he forsee coming DNA research and the ability to see genes and genetics in X-Rays?

[Awared the Nobel Prize in 1962, and] the most important work in modern biology was published in the journal Nature - on the structure of DNA. Three articles finally proved that DNA was the genetic material by showing its structure. One was by Dr. Maurice Wilkins and his team, another by Dr. Rosalind Franklin and a doctoral student named Ray Gosling. The third was by Drs. James Watson and Francis Crick. The result was the birth of molecular biology, but it was controversial.

Dr. Rosalind Franklin was the X-ray crystallographer who produced much of the key data that captured the structure of DNA. She was a colleague of Dr. Wilkins at King's College and their relationship was so strained she abandoned her work.

But her photo was the single key piece of evidence to solving the DNA structure. She supervised her doctoral student, Ray Gosling on *Photo 51*, an X-ray image of the DNA that all high school students have probably seen. She presented critical measurements of DNA at a talk that was passed on to Drs. Watson and Crick without her consultation. This strengthened the thought that DNA was doubled stranded with each strand running in opposite directions.

Drs. Watson and Crick used this data to propose a detailed physical model that explained DNA structure and sealed the argument. The pair were awarded the Nobel. Some claim her work was stolen which might be an over-reach. But the pair did not give her the credit she deserved. The Nobel can't be given posthumously, but her work on DNA was certainly deserving of it.

Consider in 1962 the Nobel Prize goes to the Double Helix and the secret of life itself.

Affirmatively, what is proposed ig that two of the moot important function of the SA/PD should be (a) to achieve a really effective relationghip between dovelopers operators, and (When intelligence collection is involved) consumers, and b) to see to it that there unity of command over a particular project when this is needed to drive through inter—related chznges in tools, operational concepts, personell, and or organization. The reagon for omphagizing these functiono is, as REDACTED pointed out (in hig memorandum entitled Organization for the Exploitation of Advanced Technology) is that the secret of success of more than one recent project has been "the unity and freedom of the command end the very close coupling between three major areas—-research and development, operations, and the consumer's requironents with the most candid interchange between the three." https://www.cia.gov/readingroom/docs/CIA-RDP80B01676R002600130061-5.pdf

CIA Deputy Director for Plans- After Frank Wisner suffered a mental breakdown in September 1958, Bissell replaced him as the CIA's *Deputy Director for Plans (DDP)*. Bissell officially assumed the office on 1 January 1959. Richard Helms stayed on as Bissell's deputy. The Directorate for Plans reportedly controlled over half the CIA's budget and was responsible for covert operations. (DDP oversaw plans to overthrow Jacobo Arbenz Guzmán, Patrice Lumumba, Rafael Leonidas Trujillo, Ngo Dinh Diem, and others. Bissell's main target was Fidel Castro.)

Jen Moore in talking about Freud, Jung, and others working for the CIA and the study of rat lines from generation to generation and ties to the JFK assasinstion is much like those treating Borderline Personalith Disorder and ADHD and related minimal brain dysfuction.

What do Elvis, President John F. Kennedy (and Jackie), Alfred Hitchcock, Truman Capote, Marlene Dietrich and Marilyn Monroe all have in common? Apart from the obvious cultural and historical significance, they all shared a special relationship with Dr. Max Jacobson or as he would later become known, ‘Dr. Feelgood’. Private physician to the rich and powerful, Dr. Jacobson would administer his own brand of alternative medicine with an efficacious bedside manner, a questionable ethical morality, and a surgical bag full of illicit concoctions known as “vitamin shots”. Jacobson would insert himself into the lives of the American glitterati and practice his own unique style of personal medicine with grave consequences to their careers and wellbeing, but also by extension, to the American people. It’s an unnerving and little-known truth that when JFK was president, he was pretty much high throughout most of the Cold War.
https://www.messynessychic.com/2023/11/24/everybody-who-was-anybody-had-dr-feelgood-and-his-speed-shots-on-speed-dial/ Dr Greeson found Marilyn Monroe dead but couldn't tell the whole story of the research Ralph Greenson, broke into her bedroom by smashing a window to find the actress dead in her bed, with an empty bottle of sleeping pills on her

DNA and XRAY and Sonic Studies of oscillations of proteins is important. The Symptom might or not be visible and decoupled from the cause. A clinical tendncy of disorder might be overcome by behavioral intervention and training or other remediations such as being more rested, nutrition deficiences or complications remobed, etc.,

If a genetic disorder does exist then it might be highly distinct in clinical expression or vary from patient to patient. Being able to track genes reliable by the cause of the disorder and not the symptom was part of the promise of DNA technology.

The Joseph P. Kennedy Jr. Foundation is a non-profit foundation founded by Ambassador Joseph P. Kennedy Sr. in 1946 in memory of his son Joseph P. Kennedy Jr. The foundation was led by his youngest brother, U.S. Senator Edward M. Kennedy, until his death in 2009. Wikipedia

The Ford Foundation is one of the most important “private foundations” collaborating with the CIA over a significant span of time in major projects in the cultural Cold War.

“At times it seemed as if the Ford Foundation was simply an extension of government in the area of international cultural propaganda. The foundation had a record of close involvement in covert actions in Europe, working closely with Marshall Plan and CIA officials on specific projects”

Frances Stonor Saunders, a noted scholar of the Cold War writes: “At times it seemed as if the Ford Foundation was simply an extension of government in the area of international cultural propaganda. The foundation had a record of close involvement in covert actions in Europe, working closely with Marshall Plan and CIA officials on specific projects”.

The leaders of the Foundation were in total agreement with Washington’s post-WWII projection of world domination, and they had over 3 billion in assets, a lot of money in 1950.

This is graphically illustrated by the naming of Richard Bissell as President of the Foundation in 1952. In his two years in office Bissell met often with the head of the CIA, Allen Dulles, and other CIA officials in a “mutual search” for new ideas. In 1954 Bissell left Ford to become a special assistant to Allen Dulles in January 1954. https://wikispooks.com/wiki/The_Ford_Foundation and https://www.voltairenet.org/article166741.html

Ted Gunderson is among those the FBI and CIA killed as they did Jen Moore for telling the truth of what I will now name the "Albert Conspiracy" that involved child abuse, child murders, murders of investigators and murders of witnesses. Jon Decam and William Colby of the CIA (both of them) died suspiciously and I assert (and Ted Gunderson) assert Colby was murdered by the CIA and I assert after Gunderson died John Decamp's death should be viewed as a suspicous car accident that disabled him mebtally first. Jen More also telling the "Albert Conspiracy" was also found dead as was the family of Jeffery MacDonald and Marilyn Monroe and Sonny Bono I assert all these and more had connections to the CIA activities in Guatamala, Bermuda Dunes Airport, New Orleans, weapons trafficking and CIA overthrows. The Albert Conspiracy is out of wedlock connections to Prince Albert York had a genetic minimal brain disorder that can be diagnoses as ADHD, Dyslexia, Borderline Personality Disorder, and other complex diseases of the brain that amphetamines that psychiatrists were testing had a positive affect on.

The Ted Gunderon Investigates Scientific Report of McMartin Shool did find CIA tunnels and excavated them and recovered artifacts while the Government did not look below the floors for the tunnels the abused children described. It may relate to Birther and test births being tested psychologically rigt about the first year of my own life.

The first construction on the preschool lot (i.e. 931 Manhattan Beach Blvd.) was the "Virginia McMartin Preschool" itself. for which the initial application for a permit was registered in December, 1962 (Permit, 1962). The building was built by C.R. Anderson and Co.. Contractors, who submitted architectural plans which were approved on February 15. 1966

Col Fletcher Prouy's first paragraph following his reprint to the letter to Ford from Mrs. Sukarno of Indonesia. "What is not generally known about the complex Indonesian struggle is the role that was played by the then Vice President of the United States, Richard M. Nixon, and the bitter aftermath that involved the sudden ouster of Allen Dulles' protege, Frank Wisner, who at that time was the head of the clandestine arm of the CIA. After Watergate, when Anthony Lukas wrote in his book Nightmare, about the growing mistrust between Nixon and the Director of Central Intelligence, Richard Helms, he could have added that since the 1958 Indonesian rebellion there were many in the CIA who made a career of hating Nixon because of what he had done to Frank Wisner, among others." McMartin Scientific Report retrieved from Dr. Gary StickeL Archaeologist Ted L Gunderson. Project Coordinator (former FBI agent) and copied or modified to here

TED L. GUNDERSON & ASSOCIATES, Santa Monica, California.

Private investigator firm included case files forensic trail work for F. Lee Bailey, esq., ina way comparable to Perry Mason and Paul Drake television duo.

Background of the Project 1.2 - The preschool site was located in the greater Los Angeles area of Southern California in the City of Manhattan Beach. Specifically it was located at ***931 Manhattan Beach Blvd. Across the street is lot 922 Manhattan Beach Blvd*** and you can this is these photos there is a patent for a device in question patent number 3233922. 3233 are the last 4 of my SSN.

It was built on a rectangular parcel near the northeast corner of ***the intersection of Manhattan Beach Blvd, and Walnut Ave.*** (Figure I). The rectangular lot measured some 35.4 m.(116') N(S by 11.1 m.(36') EAV. In addition we explored the neighboring lot (927 Manhattan Beach Blvd.) which bordered the preschool lot. extending west of it to the intersection of Walnut Avenue and Manhattan Beach Blvd. (see Figure I). This property, referred to herein as the "side lot", measured about 35.4 m.(ca. 116') N/S and 12.3 m.(ca.20') E/W (Langenwalter, ct al, 1985). ftus the combined two lots measured 35.4 m.(116t) N/S bv 23.4 m.(76') E/W. with a combined total area of 828.4 square meters (S. 747 sq. ft.). This area is hereafter referred to as the "site."

The first construction on the preschool lot (i.e. 931 Manhattan Beach Blvd.) was the "Virginia McMartin Preschool" itself. for which the initial application for a permit was registered in December, 1962 (Permit, 1962). The building was built by C.R. Anderson and Co.. Contractors, who submitted architectural plans which were approved on February 15. 1966 (Blueprint, 1966). The actual construction of the school conformed to those architectural plans (see Figure 1. which is taken directly from the architectural plans) for a singie story• wood-frame and stuccoed wall structure with a fiat. gravel-covered roof. The school was L-shaped and built on a N/S. E,'W basis. Tne long axis of the "L" was perpendicular to Manhattan Beach Blvd. and the short axis of the L. on the north.

As stated in section 1.1 above. the objectives of this archaeological project were to independently and objectively resolve whether or not actual corroborative evidence of the reports cf the children regarding features and data at the preschool could be located and recovered. This was necessitated bv the fact that despite seven years of official investigation, from September, 1983 to July 27. 1990 (USA Today, 1985: Wiley, 1991, p. 88) the tunnel reports of the children and the attendant concerns of the parents were never adequately addressed. The lack of tangible corroborative evidence of the children's reports of subterranean openings was used in court to cast doubt on the credibility of the children's testimony regarding the case in general. Obviously if such corroborative data were to

> have een discovered and entered into evidence at the appropriate time in the case, they may have been important factors in the jury's final verdicts. However, as the series of events occurred. as described below. no such corroborative evidence was to be forthcoming until our work. Even when it was recovered. it was given no role in the court cases.

By use of ground examining equipment used under the floor area a 45 foot tunnel and a 7 foot tunnel were found. They had artifacts dating from about 1960 patented equipment to 1983 Disney toy bags. I Ed Donegan am from one of those families and my mother was one of those relatives under a hidden-identity in North Carolina.

Jen Moore was a former Tracy California police officer and later a Master Degree holder in Psychology, asked participate in and gained access to file she held on sex studies, CIA history, MKULTRA, the Cold War, WWI and WWII history, and the assassination of JFK that was led under Allen Dulles. Sh was whistle-blowing some of the darkest secrets the world has ever known that were held by people connected two world wars and the cold war and have controlled our history since and during.

She was killed as she was about to name names of the elites who were criminals and tied to the JFK assassination and about to formally name the names of Edward Paul Donegan (me) and my mother Glorian Donegan born under the name Glorian Gainey in North Carolina 1926 and who is now deceased.

She was again saying what Ted Gunderson and John Decamp were saying. In the photos you will see Ted Gunderson believes a CIA operation led by then President George H.W. Bush was in 1988 tied to the same scandal a McMartin in 1987 and it was all some kind of CIA elaborate hoax of children moved around the world in abusive ways from orphanages after being terrorized. State Department passports and secret identities were made up. Villians were completely made up (as Jen Moore notes too) that Alister Crowley to Micheal Aquino were running cult groups encouraged to violence including against children but the police always let them go.

What was the CIA really doing? Per a memo written in 1966 and with some restored readability of its available text the DIA want a group to located talented children for use by the DIA who would disappear in seeming kidnappings and reverse psychology would make anyone identifying the kidnappers as Satanic Cults (that Gunderson and Moore saw through) would be dismissed as lunatics.

I invite you. I will try to entice you to] non-fiction story of great importance in history of the world and has the missing pieces to the JFK, RFK, Marilyn Monroe, MLK, and Dr King assassinations as well.

There have been attempts to silence and sabotage and death threats are still made to me and death threats were made to her before she was found dead. That system she called Silencing and was the ultimate betrayal (in her words) of the elites using CIA and other resources to conceal their criminality going back into those events from their lives or the lives of their families and presidents, CIA, FBI, and other families like Mueller, Barr, the Bush Family, now the Obama family, and many others tie into world business politics that JKF and RK differed with.

A criminology study in Importance. Normally (if I might take you along the exposition of a theory) causality is the driving factor. The anger in the male finding his wife in bed drove him to the crime-of-passion of homocide of one or both of them. But this is not that situation. A larger systemic view utilizing importance functions better when we look at the whole spinning globe and our place on it. Stalkers assert they are important to me. Some Gangland and immigrant groups claim and have since I moved to a border town I did not belong there and was threat to them. They claimed they were catching me in trap because thier children walking around were important to me. They were not and they were placed there. Other adult females, city workers, and others surround me for their view they are in some way important to me, as in warning me off bad behavior or protecting the neigborhood from my bad tendencies.

But it in fact it is the other way around. I am important to them and even a risk to them. I think my family story, my writing it, and my stories threat to them makes me a journalist risk to them and the protecion racket use of falsying smears of who I am exists primarily to damage me. That is not to say that people have not gone along with the Protection Racket because they believe the smear of me OR they get something out of it. Since many white adult sex workers want nothing to do with the right wing they are happy to teach non-white police officers and a local disabled person about goth culture and style. And for the FBI or others they want to learn how to be appealing and fit into and infiltrate that culture. Much of that is actually based on trying to act like me minus the white identitarian politics.

Arc Norther Virnia is part of the Protection Racket and it or ARC of Central Texas or other firms allow their disabled poeple to substituate for me and that substitute for me agress to payout to poor families and also gets access to cultural coaching.

But if you look beyond the more narrow interest of seekign a sex-worker with a stolen checkbook you find that the abusive allegations that are abusively part of the public treatment of me you find that the hostile environments that brook those allegations and treatment of me have a political interest in stopping my library usage, my computer to write books on, etc., It has been the experience of former FBI Special Agent Geral Sosbee, Ted Gunderson, and others including Jen Moore abusive hostile enviorments are the manufactured alternatives to safe spaced and part of CIA FBI harrassment and are retaliation for attempts to write about government officials.

First of all I will show I have been "preempted" a system the FBI and others use a two part system of. First my work and positive aspects like good gym community and politics (most of mine not all of mine are good politics) are cooped by others thus preempting those positive parts of what I do as being valued in me.

Often preempting a person is not just copying from them it is also smearing them and in a certain way such that it seems unlikely that what was was co-opted from a person would have originated from the person it was coopted from.

In short the system is discrediting people. Surveillance of a person then and copying them and smearing them and trying to take over from the person they are copying from and smearing.

I intend to show in this outlay of evidence others than Jen Moore were assassinated by what they said was an FBI CIA scheme covering up the role of global elites in our government and that includes Ted Gunderson and others.

AT the same time I will show that attacks on my books that I am writing are attempts to silence my and deprive me of office equipment, etc., and have been (in the FBI tradition Brain Glick documents in his book The war AT Home) and that all these deaths those connected to me that are unknown as to the public accepting there was a reason behind them and the deaths already known such as the Kennedy Curse and the curse of witness to the investigations of the Kennedy deaths are an integrated fabric the story of my life weaves together. All of this is exist evidence based often with recordings pictures videos public records etc., to be presented in this chapter.

In my case it is pretty easy since I am vary open about sharing ideas and care little about being identified with any "glory" or "worth" that the idea came from me. Mostly I just pick chose things in life and recommend those things I like For instance in music I often say I am a fan without being a musician. Many have copied my many YouTube playlists and I don't blame them and often encouraged it.

That had been part of my gym success and extensive reading on metabolic syndrome and sports fitness was another strength of mine. Many observations I was making such as breathing and drinking habits, nutrition, metabolic cycles in 24 and 72 hours periods following workouts, lean meats, paleo diets etc., I was a constant source of leading trends in recovery and started a few of my own.

Two particular figures (in addition to my deceased brother Tom Donegan) have been part of highly placed and closely placed elder-abuse and fraud against myself Edward Paul Donegan over a long period of time costing me a decade of recently occurring and still present homelessness and series of losing legal efforts against the harassment that was conducted from a position of power.

The two figures are Tia Marselli from the ARC of Northern Virginia and Mark Gonzales who was the District Attorney for Nueces County Texas. The smear campaign these two seemed involved in creating was the Legend of the Retarded Mr. Rumph. He loves em' is rumphs that he can view but gets caught because he is so retarded. The gullible person impersonating me in that fictitious character leaves of trail of clues and forgeries that I Ed Donegan (whose identity he has stolen) is a harm to others and needs to and is willing to pay the fees out for damaging others but after that will have sex ed workers who are high priced models meet his needs in a better way. The Mr. Rumph scheme allows for a paper trail left near locations I was at or live in such that outrage forms I even lived there or would ever live there again. The FBI and others use smear campaigns acted out by paid actors in a system called Gang Stalks the gang being undercover operatives participating in FBI or CIA operations while undercover. Much has been written about under-cover FBI and CIA activities that make up COINTELPRO operations here in the USA and elsewhere.

How this ties together is how my reputation is damaged and impeached by the smear campaign. This is in addtion to break-ins to my apartment and theft of my computers, plants of evidence, and other forms of "black bag jobs" that make up Gaslighting.

The least likely DA in America is an outlaw biker gang member who specialized in small time cases of local immigrants who he worked at defense counsel for mostly in misdemeanor matters but ambitions from the star of his DA term for Governor or now a run for Senator.

I Ed Donegan am going to assert he started a version of a COINTELPRO program at the behest of higher ups that had intended for illegal law-fare of fake allegations against me for political reasons

CORPUS CHRISTI - Nueces County District Attorney Mark Gonzalez has resigned, announcing his intention to run for US Senate.

In December, Gonzalez was set to go to trial in a case seeking his removal from office.

In a letter of resignation to Governor Greg Abbott, Gonzalez said the trial will not happen, because "I refuse to play this rigged Republican game, particularly considering Republican's hypocrisy, as their presumptive presidential nominee is under indictment in four jurisdictions across this beautiful country and no less revered."

When he was in office or newly elected? "One thing to know about Neuces Texas DA Mark Gonzales is he is a known gang member recusing himself from his own gangs murder cases and anti white pro Hispanic immigrant politics and national magazines called him the most unlikely DA in the America. His biker gang began patrolling against threats to immigrant children and I was portrayed as one (a threat), and a person who wanted to view young children exploitative and an impersonator of was confronted and had to pay up or be arrested from a conservancy likely operated by himself or himself in conjunction with others.

I dislike turning to metaphors but I can not complete the picture of this without one easily. What comes most easlity to me is infiormation circuits and lights going from illuminated to dark based on the truth-circuit. If such a chain of things link together the bulb lights up of there is a break in the chain it does not.

In the JFK assassination story tied Allen Dulles and the Donegan's that Jen Moore was telling (while facing death threats) really had two components I will call JMComponent1 and JMComponent2.

JM Component1 is a life saver (lets say made of metal) in a roll of lifesavers that involve other metal disks (JFK, RFK, MLK, Dr. King, and Birther and Free Masonry of old European money) and with the Donegan metal disks in there JMCcomponent1 and JMCompoent2 the entire story lights itself up and for the first time and all the connected events are taken from darkness to light.

JMComponent1 is this is tied to JFK and the Elites need to kill JFK to complete the plans of Allen Dulles in Battleground Indonesia (see Gregg Poulgrain. Some if not most is drawn from other sources including the diary of Maria (Kutschera) that have been increasingly partially fictionalized from early to later versions. One early foreign language film version had her likely pregnant in the Austrian convent. Another possibility is she became pregnant in London passing through on her way to North Carolina USA. Other material is drawn from my family's oral and recorded history, Jen Moroe, presidential libraries, etc.,

Another key source of JFK assassination information about the CIA (and Fort Bragg North Carolina assassinations unit we learn from Robert Groden) is Col Fletcher Prouty a Donegan friend and tied to the JFK assassination conspiracy plot he helped detect and publicize.

JMCompeent2 is that to do damage to me Texas has gone to the third grade where it was trapped anyway it what I will call abusive epsionae siphon. It is made to look like I am retarded and in the third grade (and sabotaged as to housing and opporunitie and forced into skid row) as teachers-educators in philosophy and cultural sophistication teach the truly retarded (imigators of me often from church groups) and take that learing into areas they wish to become welcome in (Dowtown Austin and upscale artistic creative circles) co-opting my own successes and background. That I am forced to look retarded so others can take lessions is the money laundering scheme that had Targeted me with life destroying and life-imited allegations conducted by and ordered by higher-ups.

IF you put JMCompent1 and JMComponent2 all documented here into the then complete stack of life-savor roll conductive circuit the light bubl lights up and for the first time and that is why it is neccesary to destroy the lives Jen Moore and myself.

I was told by bullies in the area that white people did not belong in that area (though the bully pretended he was talking to his dog - a dog that was not white). Immigrants and others in cooperation with church groups were placing teen and younger females near me and acting out that I should be happy my interests were being fed and bullied as such. I find while some may think this has a real basis in me no more so that the guy who once mistook a male biker with long to be a woman was gay or a person who accepted a few teens here or their had good adult bodies was interest in the less developed. So you can if you look hard enough find a little of that here or there but those few exceptions clearly are overwhelming overshadows by the real rule of my instincts for adult women including when I was underage myself and hoarding adult magazines.

Acting like I am exploitive of underage women by either cover acts or age-of-consent disqualified consent is just plain wrong but good smear campaign material and even profitable false allegations. Only an impersonator me would say otherwise and that is just what this illegal racket employs to fabricate allegations.

It was and is a racket or organized crime to predicate false claims asking for payouts into victims fund run by those who say they were victimized by that old white guy from the far white wing who had moved into the area.

The plan was to get me blacklisted including after hoax events including nooses left around areas I have been. I don't know if that ever happened in Corpus Christi Texas but it has happened around other areas I have been and it is rumored or believed I place them there.

It is all hoaxes and staged appearances and this preemption team was creating the hoaxes.

This was (and is true) of a racketeering and money laundering “Russian Dolls” black budget operation she and others (including myself) were outing as CIA activity, but its deeper roots into the CIA, the OSS before it, Gladio in the Catholic Church (likely under Cardinal Spellman as well as several connected Pontiffs) and big business and big money dating all the way back into the Gilded age and Free Mason influences on world politics and history.

This is intended to be an evidentiary exposition of surviving evidence. Witness statements on the record before and after witness deaths, existing documents of historical events that involve the Kennedy family deaths as part of this tory of Allen Dulles and the CIA, and existing known and unknown espionage and black-budge (covert mafia activities in some cases such as here a Protection Racket pilfering on false predicates) and the deep secrets of US history the most powerful lf US leaders are trying to hid their connections with.

My evidence presented to you is the same evidence she presented to you but I will name names. She did not tell you about the person living on 850 N. Randolph St Arlington Virginia USA but I will.

My mother? Let me tell you about my mother. She was born under the name Glorian Gainey in North Carolina 1926. It appears her story (and her and my disease) part of the FOXP2 gene and The Kings Speech. That was a movie of King George V in his suitor Mary Bowles-Lyon working to overcome FOXP2 symptoms, of mind and speech.

There are “out of wedlock” births of famous, rich, or “noble” families those families have denied for reasons of preserving the reputation and character and marriages of very powerful figures who in the glamorous spotlight did philander.

The story my mother of North Carolina though is the story of my father born in Dorchester Massachusetts to a once prosperous father who had lost all. Him in the same church as the Kennedy’s got a lucky break with WWII as service assignments go the prestigious (and in any service job dangerous) role of P-51 Mustang pilot flying recon over Europe to guide bombers, most likely to strafe Japan before the atomic bombing, and be part of the reconnaissance role of the first and second bombing wings.

He certainly knew Col Fletcher Prouty later (as I did) in Massachusetts and likely knew him in the post bombing of Japan work Prouty took up shortly after the surrender of Japan. My father was still flying in the Cold War and Korean War likely using ASTUGI Japan that is the frontwards “home” airstation of non-contested Allied space.

We can start with who Jen Moore was, how she started her life, what she did during her life and how it came to an end the way it did.

Jen Moore began her work (germane to this story) in the city of Tracy in an agricultural area of California. That itself is perhaps one thing she and I had in common and it brings to mind something (a bookshelf piece) I want you to keep in mind. When I introduce several pieces of visual evidence it may be the most important evidence I will ask you to consider.

It involves sex crimes and among the most important work Jen Moore did was as a sex crimes investigator. Perhaps at one time or another she became involved in the facts of one of my dumber actions. I close friend of mine a fellow Cal State Hayward student and also a friend was a true life friend of mine at that time sharing drinks, laughs, good times, and good music. During that time and while she was engaged and not particularly have any sort of crush on her but because she was so lovely I peeped on her from an opportunity related to construction (allowing for a camera) in the bathroom. She caught me and treated it nicely even throwing me a few "shots" of frivolous flirt and there was some heavy petting at times with us during her off and on relationship with her real partner and soon husband to be.

That was back in the 1980's and much later for me and for her she became involve in other issues thought that reputation would not leave me.

She was fighting as a police officer rapists, violent offenders of all types and the ruggedest mentally, physically, and for her especially spiritually some of the most difficult to endure sagas of suffering.

Jen Moore eventually left Tracy Police Department disabled from physical and emotionally traumatic battery and went to pursue and receive a Master's Degree in Psychology and there we meet again.

One of her specialty was Borderline Personality and the secret OSS CIA history of psychiatry going back to Vienna Austria, Frued, Jung, and many others who had CIA code names they worked under during MKULTRA in research that want far back even to WWI and its history.

Glorian Donegan (born Glorian Gainey) and I have FOXP2 gene most likely. A combination (co-morbid that means coexisting in a person) ADHD Dyslexia and some or fewer other symptoms perhaps. IT is not that uncommon even occurring in very "elite" families. Vice President Nelson Rockefeller and what he said about it … we'll let us just hear from him on this.

…

“DON’T ACCEPT ANYONE’S VERDICT THAT YOU ARE LAZY, STUPID, OR RETATDED”

(The author stands as proof that youngsters can overcome learning disabilities.)

By former Vice President Nelson A. Rockefeller

Those watching the Public Broadcasting Service program on “***The Puzzle Children***” Will include a very interesting Vice-President of the United States.

For I was one of the “puzzle children” myself - a dyslexic, or “reverse reader” - and I still have a hard time reading today.

But after coping with this problem for more than 60 years, I have a message of encouragement for children with learning disabilities - and their parents.

Based on my own experience, my message to dyslexic children is this:

Don’t accept anyone’s verdict that you are lazy, stupid, or retarded. You may very well be smarter that most other children your age.

- Just remember Woodrow Wilson, Albert Einstein, and Leonardo da Vinci also had tough problems with their reading.

- You can learn to cope with your problem and turn your so called disability into a positive advantage.

Dyslexia forced me to develop powers of concentration that have been invaluable throughout my career in business, philanthropy, and public life.

And I've done an enormous amount of reading and public speaking, especially in political campaigns for Governor of New York and President of the United States.

No one had ever heard of dyslexia when I discovered as a boy, along about the third grade, that reading was such a difficult chore that I was in the bottom one-third of my class.

None of the educational, medical and psychological help available today for dyslexics was available in those days.

We had no special teachers or tutors, no special classes or courses, no special methods of teaching - because nobody understood our problem.

Along with an estimated three million other children, I just struggled to understand words that seemed to garble before my eyes, numbers that came our backwards, sentences that were hard to grasp.

And so I accepted the verdict of the IQ tests that I wasn't as bright as most of the rest of my class at the Lincoln School in New York City.

Fortunately for me, the school (though it never taught me to spell) was an experimental, progressive institution with the flexibility to let you develop your own interests and follow them.

More to the point, I had a wise and understanding counselor in Dr. Otis W. Caldwell, the headmaster.

"Don't worry," he said, "just because you're in the lower third of the class. You've got the intelligence. If you just work harder and concentrate more, you can make it."

So I learned, through self-discipline, to concentrate, which in my opinion is essential for a dyslexic.

While I could speak better French than the teacher, because I'd learned it as a child, I couldn't conjugate the verbs; I did flunk Spanish - but now can speak it fluently because I learned it by ear, later, at the Berlitz School.

My best subject was mathematics: I understood concepts well beyond my grade level. But it took only one reversed number in a column of figures to cause havoc.

When I came close to flunking out in the ninth grade - because I didn't work very hard that year - I decided that I had better follow Dr. Caldwell's advice if I wanted to go to college.

I even told my high school girl friend that we would have to stop dating so I could spend the time studying in order to get into Dartmouth.

And I made it by the skin of my teeth.

I made it simply by working harder and longer that the rest - eventually learning to concentrate sufficiently to compensate for my dyslexia in reading.

I adopted a regimen of getting up at 5 a.m. to study, and studying without fail. And thanks to my concentration and the very competitive nature I was born with, I found my academic performance gradually improving.

In my freshman year at Dartmouth, I was even admitted to a third-year physics course. And in the middle of my sophomore year, I received two A's and three B's for the first semester. My father's letters were filled with joy and astonishment.

I owe a great debt to my professors and to President Ernest M. Hopkins. I had met Dr. Hopkins earlier and was so impresses that I made Dartmouth my goal. Most of all, however, I think I owe my academic improvement to my roommate, Johnny French.

Johnny and I were exact opposites. He was reticent, and had the highest IQ in the class. To me, he was that maddening type who got straight A's with only occasional reference to books or classes. He was absolutely disgusted by my study habits - anybody who got up at 5 in the morning to hit the books was, well, peculiar.

Inevitably, Johnny made Phi Beta Kappa in our junior year, but my competitive instincts kept me going. We were both elected to senior fellowships and I made Phi Beta Kappa in my senior year.

Johnny, of course, had the last word. He announced that he would never ware his PBK key again - that it had lost all meaning.

Looking back over the years, I remember vividly the pain and mortification I felt as a boy of 8, when I was assigned to read a short passage of Scripture at a community vesper service during summer vacation in Main - and did a thoroughly miserable job of it.

I know what a dyslexic child goes through - the frustration of not being able to do what other children co easily, the humiliation of being thought not too bright when such is not the case at all.

My personal discoveries as to what is required to cope with dyslexia could be summarized in these admonitions to the individual dyslexic:

► Accept the fact that you have a problem - don't just try to hide it.

► Refuse to feel sorry for yourself.

► Realize that you don't have an excuse - you have a challenge.

► Face the challenge.

► Work harder and learn mental discipline - the capacity for total concentration - and

► Never Quit.

If it helps a dyslexic to know I went through the same thing…

► But can conduct press conferences today in three languages…

► And can read a speech on television

► (Though I may have to rehearse it six times…

► (With my script in large type…

► (And my sentences broken into segments like these…

► (And long words broken into syllables)…

► And to win Congressional confirmation as Vice President of the United States…

Then I hope the telling of my story as a dyslexic child could be an inspiration to the "puzzle children" - for that's what I really care about.

By Vice President Nelson A. Rockefeller ("*The Puzzle Children*" was a special on learning disabilities (Attention Deficit Disorder, Hyperactivity, Dyslexia. These do differ from retardation or bipolar disorder by can be clinically mistaken for those pathologies) telecast on most PBS stations. It was hosted by ***Julie Andrews and Bill Bixby.***)

…

My (Edward Paul Donegan's) parents nor I could understand why I couldn't focus on my school work either and I was certainly very passionate about many things I was motivated but grades were always a problem and there were other problems to like being a good kid that could be wonderful but also become a terribly out of control child that could not be reasoned with. I was carried aswy by unstable emotions that were even a suprise to my rational mind that wondered why they were there doubting why things got to me that much (that internal argument between competing brain voices is a symptom of the emotions and intellect competing and a diagnostic criteria.)

Of course Julie Andrews was a quite famous "mom" to children. In the Sound of Music she played Maria Kutschera who in Austria leaves the convent (I think while pregnant) to live with Captain Von Trapp and his children. His first wife and mother of the chidlren Agatah Whitehead had died and a woman around the house was needed and in fact the soon married and moved to North Carolina.

Julie Andrews who played the ex-novitiate singing coach the the children later visited the Salzburg Austria home and spoke of the horrors the Marias' uncle Franz Kutchera and Himmler had fro early visits to the estate in 1926 and after the Von Trapp departure in 1926 had taken over the villa in Hitler's Eagle Nest mountains of Austia as the command post. That was right there in the area of Bavaria the classic Austria-Germanic hills people in the Eagle's Nest of Nazi High Command inside the villas right at Hitler's feet (per Jen Moore talking about the history of Maria Kutchera and Glorian Donegan) in Hidden Identities and Nazi Infiltrators into US politics.

Julie Andrews trained since birth as a vocalsit sang for the Queen of England at very young age, never knew who her father was but was born in Walton-on-Thames a town also known as Walton just 15 miles from Central London. Here is what is said Julia Elizabeth Wells[8] was born on 1 October 1935 in Walton-on-Thames, Surrey, England.[9][10] Her mother, Barbara Ward Wells (née Morris; 25 July 1910[11]–1984) was born in Chertsey[12] and married Edward Charles "Ted" Wells (1908–1990), a teacher of metalwork and woodwork, in 1932.[13] Andrews was conceived as a result of an affair her mother had with a family friend. Andrews learned of her true parentage from her mother in 1950,[14][15] although it was not publicly disclosed until her 2008 autobiography.[16]

Julie Andrews is quoted as " J IS FOR JOHN "My brother, John Wells, two years younger than I, is a jet pilot in the Royal Air Force, just married and stationed in Nigeria. John is dark and handsome, droll and funny. He's my full brother. Actually, my true name is Julia Wells, but that didn't have the right ring for the music hall. Andrews is my stepfather's surname. I have two half-brothers, too-Donald Andrews, 23, a member of the Rhodesian police, and 19-year-old Chris Andrews, who's coming to America soon to study photography-and a half-sister, Celia Wells, 20.

"I've seen John only three times in the past ten years, and I long to hear his giggle, which is the most wonderful throaty chuckle in the world, completely infectious. When I hear him giggling, I giggle too, and we're helpless. He laughs so hard he has to lean against a wall, and very often he'll sink on his knees in a heap.

"Years pass, yet when John and I see each other it seems as though we were together only yesterday."

The only reason I introduce that tidbit here as that later I am going to talk about Cecil Rhodes and the effort to colonize around the world

that was part of British pride of that super-power nation.

Now back to more immediate timeline focus of research Jen Moore was doing on generational studies of this form of developmental issue that did realte to British and other royal families.

To understand the Submarine hero and Captain Von Trapp and his former wife Agatha Whitehead and Great Britain connections a recognition of naval battles and naval intelligence is necessary.

Much has been made of a former FBI agent Guy Bannister and his anti-communist work. But Jim Garrison went even further into Bannister's background and I introduce some that through the Garrison book On the Trail of the Assasins.

… About a week after Oswald's Canal Street arrest, I recalled, someone arranged for him to participate in a radio debate on station WDSU. The subject was, essentially, capitalism versus communism. Oswald represented the left-wing position and duly portrayed himself on the taped program as a Marxist. After Kennedy's assassination, and less than a week after Oswald in turn was murdered, copies of the tape were sent to members of Congress as proof positive that a communist had killed the President.

Could it have been Banister or one of his associates, I wondered, who had arranged for the debate and taped it? Could it have been Banister who sent it to Congress? If Oswald was working under Banister's direction that summer, it was clear that neither his pamphleting nor his radio debating were intended to convert anyone to the cause of Marxism. Rather, they were designed to accomplish only one thing: to create a highly visible public profile for Lee Harvey Oswald as a communist.

I turned away from Banister's old office and looked across Lafayette Street, where the U.S. Post Office Building loomed. Occupying an entire city block, it was majestic and timeless in contrast to its decayed, weatherbeaten surroundings. The building housed the New Orleans Secret Service operation. And, I now recalled, upstairs was the New Orleans headquarters of the Offce of Naval Intelligencet - the organization I had been musing about the night before in relation to Oswald's Marine intelligence training. Was it just coincidence, I asked myself, that Guy Banister, who had begun his career in World War II with the O.N.I., had chosen an offce right across the street from his old employers? Just as much a coincidence, I supposed, as the location of his previous private detective offce - directly across the street from the New Orleans offces of the C.I.A. and the F.B.I.

I walked down Lafayette Street, toward the Mississippi River, to look at two other addresses on the 600 block of Magazine Street that I had noted from my reading about Lee Oswald's movements. One was the Reily Coffee Company, where Oswald had been listed as an employee in 1963, shortly before his famous emergence on the city streets handing out circulars calling for fair play for Fidel Castro. You would have to be practically a stranger to the city not to know that William Reily, the coffee company's president, had actively supported the anti-Castro movement for years.

As I walked around the small coffee company building, I wondered whether Lee Oswald actually had labored there as a "second oiler" as company records had indicated, or whether the firm simply had been his nesting place until it was time for him to fulfill his ill-fated assignment as an agent provocateur for Guy Banister. …

What few knew but she did is that distant relatives being secretly watched by powerful families had a lot to do with orphanages scandals like McMartin School the CIA is said to have been involved in, Boys Town in Franklin Nebraska, and other locations the powerful elite have been able to impose a Conspiracy of Silence. Ted Gunderson asserts his partner in the investigation William Colby of the CIA Family Jewels program was killed by the CIA FBI because he was whistle-blowing the scandals and lending his names to questioning the many deaths of children and Franklin Nebraska officials and investigators.

OAN Sits Down With Former FBI Agent Over Death Of Clinton Investigator

One America News

the file contained in this book OANRG.mp4 probably will not play in the epub readers now but the video is on YouTube and One America News sites.

A veteran journalist who was investigating possible [politically connected and politically] sex crimes from former President Bill Clinton is said to have been found dead in Washington D.C.

Prince George's County Police Department released a statement to One American News (AONN) regarding Jenny Moore's death investigation saying officers found a woman unresponsive at a Washington DC hotel after a welfare check.

The department claims the woman was pronounced dead at the scene. One America's Neil W McCabe breaks down the case.

FBI whistle blower Robyn grits told one American News her friend Jen Moore told her that if the wrong people found out about the documents, she had just obtained they would kill her.

Gritz did not know what those documents (the were the story of Edward Donegan and Glorian Donegan) were but she does know that the FBI called her August 13th to tell her that her friend was dead this is the Capitol Heights Maryland hotel where Moore was found unresponsive by housekeeping.

.

Grit said that she never knew Moore's last name but that the police called her because she had listed the veteran FBI agent as the next of kin.

"On Monday I was sitting towards the end of the day no sitting at my desk at work and I looked down and a lot of messages were coming in myself up and so I looked at on Twitter someone had messaged me you do know task force is that task force was the nickname for Moore and grits said that she used it instead of her name to protect her craite said that she thought it was all a sick joke but after calling around she confirmed that task force had passed and then the phone rang it was a detective from Prince George's County Police Department and really really nice guy and he said I got your name and number to get her next-of-kin and he he just said you know this poor woman he goes suicide is it's pretty much ruled out nothing to indicate suicide nothing to indicate a forced entry nothing to indicate of any kind of physical confrontation.

the initial call was that Moore had suffered a seizure she said Robin Gretz was not just any FBI veteran ***for 16 years she was a top agent assigned to high-profile cases such as the Boston Marathon bombing and posted as the FBI's liaison officer to the Defense Intelligence Agency six years ago.*** She filed a gender discrimination complaint but instead of addressing her concerns the FBI put her on unpaid leave and has slow walked her case.

Using her skills she used Moore's phone number to find three of the reporters relatives and passed on their details to the detective it was this personal history that formed the bond between the two women as more herself was a former California police officer who was targeted by her leadership.

Truepundit.com reported that Moore had come to them about the child molestation ring she was investigating with the help of a 26 year-old who said he was passed around the ring in the 1990s .

I said you know you need to kind of focus on what you have here that is the most needed and and I thought you talked to someone ..

Brett McCabe said she never knew what Moore was working on but she did know it was getting serious in the middle of doing all this research she realized she was possibly getting into some pretty dark places so she and she had documentation for everything so she texted me and said I got to find out who I can give this paperwork to and if it gets into the wrong hands someone will kill me and that was just I could say that was only about to speak before her her death was when she said if it gets in the wrong hands at one point she offered to take in more at her place in the Midwest but more never followed up on it she said now she is mourning a friend and fellow traveler I would describe and I actually just picked it up a little thing for her kind heart fierce minded brave spirit that's exactly how I would describe Jenny.

Nelson Rockefeller seemed like a nice person and acted nice toards children. He lost a son in Indonesia in 1961 and JFK who was president

of the usa then assured him all that could be done would be done.

Here is some background on that because we are going to be hearing from the works of Greg Poulgrain and others the Presidency and the CIA in Indonesia and Col Prouty (who we the Donegan's knew) also have information we will introduce for consideration here.

Michael Rockefeller retrieved from Wikipedia and copied or modified to here

Michael Rockefeller (May 18, 1938; disappeared November 19, 1961) was a member of the Rockefeller family. He was the son of New York Governor and later U.S. Vice President Nelson Rockefeller, a grandson of American financier John D. Rockefeller Jr. and a great-grandson of Standard Oil co-founder John D. Rockefeller Sr.

What is Good? Or Evil? A military commander may make a command decision costing lives. Wars may be prevented by the assasination of a aggressively minded dictator. In the Cold War following WWII was it Good to ally with the combinatioo of forces and methods that defeated the Nazi War Machine and later use its scientists in the USA to defeat the USSR?

We don't know that becase these are largely unsolvable questions of philsophy and politics and morality. What we do know is that very powerful people act under a variety of reasons. The Rockefellers including the son lost in Indonesia felt world cultural bonding and influences could prevent WWIII and many were more connected to the history of WWII adn even WWI than the American War for Independence from Great Brittian.

Those who shot JFK thought they were doing Good or perhaps a necessary evil if the Cold War was going to be won.

Indonesia and the war the US covertly fought within its borders is going to be a central part of the Donegan and Jen Moore dark secrets. Col Fletcher Prouty who worte the books about the assassination of JFI and the desire of the CIA to control the world also wrote numerous articles one being "Indonesia 1958: Nixon, the CIA, and the Secret War" By L. Fletcher Prouty.

**** 1) Could Micheal Rockefeller been killed by Indonesian Nationalists and 2) if not might he have held me when I was a newborn on Los Angeles County California at in the Santomica Beach City area (Inglewood district of Manhattan Beach City Los Angeles County)? ****

BirthCertZ is zoom photo on the key area of my birth certificate November 19, 1961 in Los Angeles County California, Inglewood neighborhood area of Manhattan Beach City that is next to Santa Monica Beach City that JFK was staying at and Patricia Kennedy and her husband English actor Peter Lawford lived at. In JFK JFK, Dave Powers and others were there with JFK escorting him as he was in town for at least one thing the Democrat Party Fundraiser dinner.

Here is a little on Peter Lawford rich son of Lt. General (second in command reporting to the Captain General on the same battlefied) Sydney Turing Barlow Lawford. Peter Lawford was his only son. Sydney Turing Barlow Lawford served in the Second Boer War in South Africa, commanding the 19th battalion of Mounted Infantry, and was promoted to major on 21 November 1900. Following the end of the war he received the brevet rank of lieutenant-colonel on 22 August 1902, before he returned home on the SS Briton the following month. He received his colonelcy in 1912 and became the commandant of the School of Mounted Infantry at Longmoor. His military nickname was 'Swanky Syd', apparently derived from his habit of donning full dress regalia, including all of his medal entitlement, regularly.[6] He was knighted in the field.[7] Field Marshal Earl Douglas Haig noted in his personal diary in early 1915 the following assessment of Lawford as a General: "I was at Sandhurst with Lawford, ... although endowed with no great ability, he is hard fighting and plucky."

After the war Lawford received promotion to the rank of Lieutenant-General, and was posted to the British India Army. He retired in 1926.

This was a period of independence versus colonialism struggle. Assuming leadership of the Indian National Congress in 1921, Gandhi led nationwide campaigns for easing poverty, expanding women's rights, building religious and ethnic amity, ending untouchability, and, above all, achieving swaraj or self-rule.

While serving in India in the early 1920s, and while still married to Muriel, he fell in love with the wife of one of his officers, May Somerville Aylen (4 November 1883 – 23 January 1972), and she became pregnant with his child. Colonel Ernest Aylen, May's husband, upon hearing this news, divorced her over the scandal.[10] General Lawford and Muriel divorced. He then married May Aylen, and their child, the actor Peter Lawford, was born in 1923, when his father was 58 years of age. The Lawfords returned to England but the scandal eventually drove the family to settle in France, and they then moved to the United States in the late 1930s.

Was Peter Lawford some kind of Rich Weirdo? He was unusual even by Hollywood standards. "Famous for being Famous." Like his father General Lawford always well and even over-dressed. A British actor with a reputation of a leading man that was married to Patricia Kennedy sister of Senator and President JFK their father former Ambassador to Great Britain. JFK was there at the Lawford estatge for fundraising and he could assemble donors to the JFK LBJ headed Democrat Party as the 1962 elections loomed.

When Peter Lawford was child he fell through a French door and cut his right arm very badly; consequently, he never regained full use of his right arm and hand. Thus, he was turned down as unfit for military duty and did not serve during World War II. In the gay rich weirdo house it is said some would give their right arm for the privildge of being in the lab where I think JFK as Frankenfer and LBJ as Riff Raff and Betty Donegan and James Paul Donegan and others are mixed up with making a new life form artificially.

Interestingly enough there was a meeting between Thorkil Kristen and JFK and George Ball of the State Department February 20, 1961 about economic development of lesser developed countries and they intended to meet again in about 9 months that would be about November 19, 1961 the day of my birth certificate.

Thorkil Kristensenwas Secretary General of the *OECD* from 1960-1969. The Organisation for Economic Co-operation and Development (OECD; French: Organisation de coopération et de développement économiques, OCDE) is an intergovernmental organisation with 38 member countries,[1][4] founded in 1961 to stimulate economic progress and world trade. It is a forum whose member countries describe themselves as committed to democracy and the market economy, providing a platform to compare policy experiences, seek answers to common problems, identify good practices, and coordinate domestic and international policies of its members.

TwoNine (Two months and Nine months after that and 11 (November is the eleventh month) are the two image files of public records I show here to connect a planned birth I think for the economic development of Indonesia. I am progressing slowly in the out-lay of facts here and I will not at this time and probably not in this chapter speak of President Barrack Obama Jr's success in the economic recovery program or growth of the Stock Market under him. It leave it his detractors to do that instead.

I am going to assert in this book a plan was underway for Indonesia the CIA was backing and Barrack Obama Jr. was someone they wanted to place as child there so he could become an Agent of Influence there.

Donald Barr of the OSS and CIA (and father of William Barr) was headmaster of the Dalton School from 1964 to 1974.[9] During his time as Dalton's headmaster, Barr is alleged to have had a role in hiring future financier and convicted sex offender Jeffrey Epstein as a math teacher despite the fact that Epstein (who graduated from high school at the age of 16 and secured a full scholarship to Cooper Union) had failed to complete his degree and was only 21 years old at the time. In 1973, Barr published Space Relations, a science fiction novel about a planet ruled by oligarchs who engage in child sex slavery. It has been noted that the plot of the novel anticipates the crimes of Epstein and his convicted and prosecuted accomplice (the list of politicians and celebrities involved in sex crimes remains hidden), Ghislaine Maxwell. - Wikipeda

Did Donald Barr and Chauncey Holt through Joseph Kennedy Sr have a WWII OSS CIA relationship? Hot while in Balitmore Maryland during the war did illustratoins for medical works. At Hopkins, Lashley minored in psychology under John B. Watson, whom he continued to work closely with him after receiving his PhD. It was during this time that Lashley worked with Shepherd Ivory Franz and was introduced to his training/ablation method. Watson had a great deal of influence on Lashley. Together the two conducted field experiments and studied the effects of different drugs on maze learning of rats.[4] Watson helped Lashley to focus on specific problems in learning and experimental investigation, followed by locating the area of the cerebrum involved in learning and discrimination.

After obtaining his Bachelor of Arts at West Virginia University, Lashley was awarded a teaching fellowship at the University of Pittsburgh, where he taught biology along with biological laboratories. While there he also carried out research which he used for his master's thesis.[4] Once Lashley completed his master's degree, he studied at Johns Hopkins University, where he received his PhD in genetics in June 1911. He became a professor at University of Minnesota, University of Chicago, and Harvard University.

Lashley's career began with research concerning brain mechanisms and how they were related to sense receptors. He also conducted work on instinct as well as color vision. He studied many animals and primates, which had been an interest since his freshman year at college.

John Broadus Watson (January 9, 1878 – September 25, 1958) was an American psychologist who popularized the scientific theory of behaviorism, establishing it as a psychological school.[2] Watson advanced this change in the psychological discipline through his 1913 address at Columbia University, titled Psychology as the Behaviorist Views It.[3] Through his behaviorist approach, Watson conducted research on animal behavior, child rearing, and advertising, as well as conducting the controversial "Little Albert" experiment and the Kerplunk experiment. He was also the editor of Psychological Review from 1910 to 1915.[4] A Review of General Psychology survey, published in 2002, ranked Watson as the 17th most cited psychologist of the 20th century.

The Little Albert experiment was a study that mid-20th century psychologists interpret as evidence of classical conditioning in humans. The study is also claimed to be an example of stimulus generalization although reading the research report shows that fear did not generalize by color or tactile qualities.[1] It was carried out by John B. Watson and his graduate student, Rosalie Rayner, at Johns Hopkins University. The results were first published in the February 1920 issue of the Journal of Experimental Psychology.

After observing children in the field, Watson hypothesized that the fearful response of children to loud noises [environmental traumatic stressors] is an innate (inherited genetic trait) unconditioned (non skinnerian) response. He wanted to test the notion that by following the principles of the procedure now known as "classical conditioning", he could use this unconditioned response to condition a child to fear a distinctive stimulus that normally would not be feared by a child (in this case, furry objects).[2] However, he admitted in his research article that the fear he generated was neither strong nor lasting.

The aim of Watson and Rayner was to condition a phobia in an emotionally stable child.[3] For this study, they chose a nine-month-old infant from a hospital. The child was referred to as "Albert" for the experiment.[4] Watson followed the procedures which Ivan Pavlov had used in his experiments with dogs. - Wikipedia

I Edward Donegan do assert there was a test birth underway (testing remote biological relatives of Price Albert George VI and that if successful might groom Barrack Obama Jr. for Indonesia. There is a picture that is rather laughable and meant to be of someone who looks like Donald Barr holding and experimental monkey and there is something interesting in the background of that photo taken at the White House of a man in a labcoat. The OSS and CIA teams were working on under-cover hidden identities genetic experiments.

My Brother? Let me tell you about my brother

He did not have volatile emotions. I did and my mother did. We were sort of a Twins study in our own right shaing parents but half the offspring had FOXP2 and have did not. Him, his side of the offspring. I assert there was a third birth and that was Barrack Obama Jr who in a flip of the coin did not have FOXP2. I can describe my brother Tom Donegan's untimely death by an allegory.

The allegory of the Vulture and the Harpie. All Tom Donegan hated in his life was the CIA, JP Morgan, and other of the families that funded the overthrow of Chile and comitted other international acts of terror. American Field Service exchange candidates used at Head-Royce high school was an eye-opener for him.

Those were the Vultures. JP Morgan, Cecil Rhodes, and others. They created Harpies they acted through, smaller birds that did the deeds JP Morgan needed but JP Morgan wanted to hide himself from. JP Morgan, Rockefeller, and others created interbreeding studies that allowed covert-indirect rule of births to people like Barrack Obama Jr. to maybe Obama Sr of Kenya or Malcom X Agent of Influence in Saudi Arabia or other families Obama Jr might be born into or raised in like Indonesia and be accepted in that country.

These were the Harpies that really attacked independent nations. The Vulture also being a Bird may also defend the Harpie at the Harpie's request if publicliy asked for. The Vulture may also kill some of the Harpies if they are a threat.

Tom Donegan was a threat. Harpies have been used on me too and are run by Vultures. The feed on false allegations me etc., by Harpies attacking me. If I attack back at the Harpie the most honorable Vulture will defend its own kind. I think Tom Donegan was asked into an Agent of Influence role back in the post Head-Royce Highschool days and became a part of MKULTRA but knew too much about the program for him to be left alive, he died of canver a few years ago.

Inflammatory and Vitriolic retrieved from Vocabularly.com and copied or modified to here

DEFINITIONS OF INFLAMMATORY

In medical terms, something that is inflammatory causes a local reaction that shows up by swelling, heat, pain, and redness. If you are stung by a bee, you may have an acute inflammatory reaction to the sting.

The adjective inflammatory also refers to something that excites anger, violence, rebellion, or similar strong emotions, in many cases referring to speech or writing. If you are a politician, inflammatory speeches may be one tool you use to incite your constituents to vote against the corruption of your opponent. After all, a stirring speech about rights people may lose if an election goes a certain way is more likely to get out the vote than a more understated discussion.

1. **adjective** arousing to action or rebellion

   serving or tending to provoke, excite, or stimulate; stimulating discussion or exciting controversy

   synonyms:incendiary, incitive, instigative, rabble-rousing, seditious provocative

VITRIOL

Definitions of Vitriol is harsh, nasty criticism. You may have deserved some blame when the cake didn't rise, but the head chef's stream of vitriol was unnecessary.

Back in the day, vitriol was the name for sulfuric acid, which burns through just about anything. So think of vitriol as language so mean-spirited and bitter that it could eat through metal: "As a divorce lawyer, you were familiar with vitriol, but nothing prepared you for the time you wore a Red Sox cap at Yankee Stadium."

1. n. abusive or venomous language used to express blame or censure or bitter deep-seated ill will
2. v. subject to bitter verbal abuse
3. n. (H2SO4) a highly corrosive acid made from sulfur dioxide; widely used in the chemical industry
4. expose to the effects of vitriol or injure with vitriol

What Jen Moore said about being stalked herself as I was is that a person tries to injure you in some disgusting way disgusting to you and then just keep pouring salt on and reinjuing with more disgusting treament of the wound so it is trauma producing or as Sosbee said will bring about suicide or as I say contentious fights. Also called Rough Noise the stimuli is meant to be psychologically too disruptive to surive in and maintain a normal function. It is also called Terror Stalking meant to bring about fear and mental states what will cause mental health commitments in panicked states.

The Task Force she was on (most likely Anti White Hate or something like it) wanted to abusively degrade me and after learning from adult entertainers about sex work in elite circles to then infiltrate those circles but using the negatie legend of me to 1) Justify my exclusion from elite circles and 2) Fund lessons in elite metro-sexuality on the premies that I neeed them to socially succeed when in fact it was the Mafia who wanted to learn how to socially succeed and by replacing me replacing my politics.

Jen More I was being abused and defrauded by the system of paying out claims I had harmed others but the Protection Racket assertign I had done wrong to others was operated by criminals who killed her to keep the phony allegaions and phony appearances and use of phony Ed Donegan in operation so the phony Ed Donegan could learn to be the best partymeister Austin college town has ever seen.

So while that damaged me for some obvious reaons Jen Moore and I think a campaign to damage me has deeper origins than just my right wing views.

This protetion racket operated by a Slush Fund is connected to a string of deaths and illegal ativities and this time-line traces them back to what they were and their origins actually are.

Many like myself writing books about the CIA or FBI or there operations or their official or public officials undergo Gang STalks. Thus far the media will not give sufficient attention to the situation probably in part because the editorial control the super-rich have as influence in the media, the issue does not affect enough people, and people have claimed to be stalked are flooding lawsuits and may be mentally ill or fraudsters looking to be a part of class action suits they may be elligble for.

Another reason Gang Stalk victims have had difficulty seeking remediation is at least in my case I have been asked to prove why I would be stalked by people unfairly smearing and assaulting me and starting tense situations and I had to research into the Kennedy assasination to find out why I (or Jen Moore or Ted Gunderson or Geral Sosbee) would be "targeted" by the CIA and its suborndiate agencies and personell it conducts out of what it seems is CIA Denver Colorado.

I have included a picture of Vernoica Hoffman who after first being recruited into a Stalk later died long before her time and I believe she herself was silenced after she had too much knowledge of the operation and was only used for a while then later abused by the underover intelligence operation. Makign it seem like she was bipolar when she was just terrified discounted anything she might have said about what it was that she did know about the situation with me.

Other books by Donald Barr have a them of Free Mason inspired world rule that can bring about peace. A Planet in Arms is a novel in which Rohan's Planet has just won its independence from the Terran Empire of Earth and established a new government and also The wonders of prehistoric life.

One of his books suggests a person who acted like a Knight would be perceived as one by others and seems to suggest (although knights are not hereditary) a basis for heridatary leadership if not cover heridtary rule.

Photo 51 is an X-ray based fiber diffraction image of a paracrystalline gel composed of DNA fiber[1] taken by Raymond Gosling,[2][3] a graduate student working under the supervision of Rosalind Franklin in May 1952 at King's College London, while working in Sir John Randall's group.[4][5][6][7][8] The image was tagged "photo 51" because it was the 51st diffraction photograph that Franklin had taken.[9] It was critical evidence[10] in identifying the structure of DNA.[11]. Experiments in life and Sargent Schriver of the Peace Corps and USAID that is said to be tied to Barrack OBama Jr. origins. Hints at it allegorically, nothing more, but there is a real paper trail of real public records release by the CIA and others that would confirm in reality the allegory in cinema.

I have red the declassified details and analyis regarding the CIA and Obama story including the death of Barrack Obama Sr in Indonesia that some attrrbitute to the CIA to conceal the CIA role in his story. I have also read The Story of Obama: All in The Company (Part I https://www.voltairenet.org/article166741.html) and The Story of Obama: All in the Company (Part II https://www.voltairenet.org/article166759.html) by Wayne Madsen. "In the second part of his investigation Wayne Madsen focuses on Barack Obama’s mother and stepfather. He follows their footsteps as CIA assets from the University of Hawaii, home to some of the CIA’s blackest projects, to their activities in Indonesia where a vast US-sponsored anti-communist massacre was unfolding. It marked the start of globalisation in Asia and in the rest of the world. Unlike the Bush dynasty, Barack Obama has smartly concealed his own connections with the Agency and, in particular, those of his ancestors ... until now."

Though not on the front pages of US media outlets there has been quiet and improving research by narrow slice of media that shows there was a CIA role in the origins of Barrack Obama Jr. and Wayne Madsen is one such well informed writer.

"In 1983-84, Barack Obama worked as Editor at Business Internation Corporation, a Business International Corporation, a known CIA front company." "President Obama’s own work in 1983 for Business International Corporation, a CIA front that conducted seminars with the world’s most powerful leaders and used journalists as agents abroad, dovetails with CIA espionage activities conducted by his mother, Stanley Ann Dunham in 1960s post-coup Indonesia on behalf of a number of CIA front operations, including the East-West Center at the University of Hawaii, the U.S. Agency for International Development (USAID), and the Ford Foundation. Dunham met and married Lolo Soetoro, Obama’s stepfather, at the East-West Center in 1965. Soetoro was recalled to Indonesia in 1965 to serve as a senior army officer and assist General Suharto and the CIA in the bloody overthrow of President Sukarno."

Ted Gunderson is another Conspiracy Theorist I have read and researched and like other Dissidents who doubt the offical narratives believes McMartin Preschool and Boystown Franklin Nebraska scandals and other abuse of and murder of children were tied to CIA activities.

FOr this we need to continue along the beach front of Los Angeles County.

ABSTRACT: The McMartin Preschool child abuse case began in 1983 in Manhattan Beach, California, and was one of the most visible cases in history. Although two trials were conducted and no convictions were obtained, some individuals continue to believe that dozens of children were sexually abused at the preschool. In 1990 an archaeologist was hired to determine whether tunnels had existed under the school because some of the children had alleged that some of their abuse took place in tunnels under the building. The archaeologist's report was issued in 1993.

It concluded that evidence of back-filled tunnels had been found. This critical analysis of the archaeologist's report concludes otherwise, that what the archaeologist found was actually the filled-in remains of a rural family's trash pit that predated construction of the school.

Regarding artifacts discovered in soil under the preschool, alternative interpretations to those of the archaeologist are given. A theoretical functional analysis of the variables that may have accounted for the archaeologist's evident misinterpretation is presented.

Michael Rockefeller retrieved from Wikipedia and copied or modified to here

Michael Clark Rockefeller (May 18, 1938; disappeared November 19, 1961) was a member of the Rockefeller family. He was the son of New York Governor and later U.S. Vice President Nelson Rockefeller, a grandson of American financier John D. Rockefeller Jr. and a great-grandson of Standard Oil co-founder John D. Rockefeller Sr.

Rockefeller disappeared during an expedition in the Asmat region of southwestern Netherlands New Guinea, which is now a part of the Indonesian province of South Papua. In 2014, Carl Hoffman published a book that went into detail about the inquest into the disappearance, in which villagers and tribal elders admit to Rockefeller being killed after swimming to shore in 1961.[1] No remains or physical proof of him dying have been discovered.

Early life[edit]

Michael Rockefeller was born on May 18, 1938, the fifth and last child of Nelson and Mary Todhunter Rockefeller. He was the third son of seven children fathered by Nelson, and he had a twin sister named Mary. Michael attended the Buckley School in New York City and graduated from the Phillips Exeter Academy in New Hampshire, where he was a student senator and exceptional varsity wrestler. He then graduated *cum laude* from Harvard University with an A.B. in history and economics.[1] He also served for six months in 1960 as a private in the United States Army.

Following his military service, Rockefeller went on an expedition for Harvard's Peabody Museum of Archaeology and Ethnology to study the Dani tribe of western Netherlands New Guinea. The expedition filmed *Dead Birds*, an ethnographic documentary film produced by Robert Gardner, for which Rockefeller was the sound recordist.[1] Rockefeller and a friend briefly left the expedition to study the Asmat tribe of southern Netherlands New Guinea. After the expedition ended, Rockefeller returned to New Guinea to study the Asmat and collect their distinctive woodwork art.[1][2]

> "It's the desire to do something adventurous," he explained, "at a time when frontiers, in the real sense of the word, are disappearing."

Rockefeller spent his time in New Guinea actively engaged with the culture and the art while recording ethnographic data. In one of his letters back home, he wrote:

> I am having a thoroughly exhausting but most exciting time here ... The Asmat is like a huge puzzle with the variations in ceremony and art style forming the pieces. My trips are enabling me to comprehend (if only in a superficial, rudimentary manner) the nature of this puzzle ...[3]

Disappearance[edit]

On November 17, 1961, Rockefeller and Dutch anthropologist René Wassing were in a 40-foot (12 m) dugout canoe about 3 nautical miles (6 km; 3 mi) from shore when their double pontoon boat was swamped and overturned.[4] Their two local guides swam for help, but it was slow in coming.[5] After drifting for some time, early on November 19, 1961,[1] Rockefeller said to Wassing: "I think I can make it." He then swam for shore. The boat was an estimated 12 nmi (22 km; 14 mi) from the shore when he made the attempt to swim to safety, supporting the theory that he died from exposure, exhaustion or drowning.[5]

Wassing was rescued the next day, but Rockefeller was never seen again despite an intensive and lengthy search effort. At the time, his disappearance was a major world news item. His body was never found,[6] and he was declared legally dead in 1964.[7][8]

Speculation[edit]

It was originally reported that Rockefeller either drowned or was attacked by a shark or saltwater crocodile. However, because headhunting and cannibalism were still present in some areas of Asmat in 1961, there has also been speculation that Rockefeller may have been killed and eaten by tribespeople from the Asmat village of Otsjanep.[9]

In 1969, journalist Milt Machlin traveled to the island to investigate Rockefeller's disappearance. He dismissed reports of Rockefeller living as a captive or as a Kurtz-like figure in the jungle, but concluded that circumstantial evidence supported the idea that he had been killed.[10] Several leaders of the village, where Rockefeller likely would have arrived had he made it to shore, had been killed by a Dutch patrol in 1958, thus providing some rationale for revenge by the tribe against someone from the "white tribe". Neither cannibalism nor headhunting in Asmat were indiscriminate, but rather were part of an eye-for-an-eye revenge cycle, so it is possible that Rockefeller found himself the victim of such a cycle.[11]

Author Paul Toohey, in his book *Rocky Goes West*, claims that Rockefeller's mother hired a private investigator in 1979 to go to New Guinea and try to solve his disappearance. The reliability of the story has been questioned, but Toohey claims that the private investigator swapped a boat engine for the skulls of the three men that a tribe claimed were the only white men they had ever killed. The investigator returned to New York and handed these skulls to the family, convinced that one of them was the skull of Rockefeller. If this event did actually occur, the family has never commented on it. However, the History Channel program *Vanishings* reported that Rockefeller's mother did pay a $250,000 reward to the investigator which was offered for final proof whether or not Rockefeller was alive or dead.[12]

In the documentary film *Keep the River on Your Right*, Tobias Schneebaum states that he spoke with some Asmat villagers at Otsjanep, who described finding Rockefeller on the riverside and eating him.[13]

Richard Nixon was a Congressman in 1949 leaving the US Navy as a Commander and in Southern California fran for US Representative for a southern California district. He began anti-communist activities and traveled the post-war European continent largely helped create the CIA and the Mashall plan as the OSS and the plan to defeat Nazi Germany passed into history and the plan to fight and win against Communism began.

In 1953 as Vice President (sworn in on the Republican Party ticket with Eisenhower as the President of the USA) Nixon and the National Security Council and apparatus to oversee the security of the USA and free world and when JFK was sworn in January 20 1961 the plans in Indonesia were already underway just as the plans for overthrowing Cuba, Guatemala, and Iran were.

As this activity was underway and Micheal Rockefeller was already doing cultural work in Indonesia where was JFK the new President of the USA that day?

On November 19, 1961 John F. Kennedy, David Powers, and others were in Santa Monica City of Los Angeles County California staying with Patricia Kennedy at that time married to the British actor Peter Lawford and they the Kennedy party were straying at the La=wford estate.

Now Vice President Nixon 1953-1960 who was trying to overthrew Indonesia and JFI were from seperare parties. JFK was what some Irish Republican Army types might called "Occupied Ireland" the Emerald State and especially the Roman Catholic majority Republic of Ireland fighting for independence from England and William of Orange occupying Ireland and this was part o Boston Massachusetts history.

Nixon and his Vice Present Ford (When Nixon was elected in 1968 Spiro Agnew was briefly VP but upon scandal of VP Spiro Agnew Gerald Ford become his VP. When Nixon resigned Geral Ford became President and asked Rockefeller to be Vice President.

Many think and Jen Moore and Ed Donegan with the secrets they hold believe Nixon (who JFK defeated for office of the President) had secret plans in Indonesia, Cuba, and elsewhere that JFK inherited and rejected and JFK being in the Lawford Kennedy Schriver estate on November 19, 1961 may have bee part of it. Micheal Rockefeller may have even been trying toi depart for California.

Conspiracy Theorists today question Gerald Ford on the Warren Commission, the break-in to the DNC Headquarters by Nixon operatives by the CIA and other events, cover-ups, and scandals involve the Averell Harriman laid plans of old money wanting a plan for the world that JFK was trying to reject.

The Rockefeller's, Bush family, Walker Family, and many oil connected families were part of the Robber Barron tradition of old money families that really covertly ruled the world including using hired assassins,

Greg Poulgrain whose theories I will introduce later wrote "JFK Vs. Allen Dulles: Battleground Indonesia" and it was the classic old world money and power the the Dulles Brothers (John Foster Dulles and Allen Dulles) that included Dean Rusk and the Rockefeller oil money based world benevolency operations that had one view of expansion of US and British influence on independent governments and JFK who by Boston history was resentful of the British and old money and colonialism.

Before the photos and other existing forensic evidence in introduced more fully let us touch one more time on cultural exploration and outreach in Papua New Guinea Indonesia and that area just off the cost of Australia.

A journey to the heart of New Guinea's Asmat tribal homeland sheds new light on the mystery of the heir's disappearance there in 1961

Carl Hoffman in March 2014 writes I'd been fascinated with the story ever since I first saw a photo of Michael on his first trip to what was then called Netherlands New Guinea. In it he is kneeling, holding his 35-millimeter camera under the close eyes of natives. He was working on a documentary film in the highlands of the Great Baliem Valley. That film, Dead Birds, was a groundbreaking ethnographic examination of a barely contacted, stone-age culture that engaged in constant ritual warfare. The mountains, the mist, the naked men yelling and screaming and attacking one another with spears and bow and arrow, had fascinated and entranced me, as had the whole idea of contact between people from dramatically different worlds.

> The official cause of Michael's death was drowning, but there had long been a multitude of rumors. He'd been kidnapped and kept prisoner. He'd gone native and was hiding out in the jungle. He'd been consumed by sharks. He'd made it to shore, only to be killed and eaten by the local Asmat headhunters. The story had grown, become mythical. There had been an off-Broadway play about him, a novel, a rock song, even a television show in the 1980s hosted by Leonard Nimoy.
>
> I spent hours looking at that photo, wondering what Michael had seen and felt, wondering what had really happened to him, wondering if I might be able to solve the mystery. That he had been kidnapped or had run away didn't make sense. If he had drowned, well, that was that. Except he'd been attached to flotation aids. As for sharks, they rarely attacked men in these waters and no trace of him had been found. Which meant that if he hadn't perished during his swim, there had to be more.
>
> There had to have been some collision, some colossal misunderstanding. The Asmat people were warriors drenched in blood, but Dutch colonial authorities and missionaries had already been in the area for almost a decade by the time Michael disappeared, and the Asmat had never killed a white. If he had been murdered, it struck to the heart of a clash between Westerners and Others that had been ongoing ever since Columbus first sailed to the New World. I found it compelling that in this remote corner of the world the Rockefeller's and their power and money had been impotent, had come up with nothing.
>
> How was that even possible?

This Super Conspiracy tale of subplots and sub conspiracies from a range of people like Mark Lane,l Ed Donegan, Jen Moore, Ted Gunderson, Gregg Poulgrain, Penn Jones Jr., Col Fletcher Prouty, Jim Garrison, Joan Mellon, and others will involve statements made by CIA Director William Colby and others in recently or more widely available information and yet though believable en toto each element you have been told not to believe.

Jen Moore was pointing her camera at a second floor apartment 850 North Randolph I Edward Paul Donegan and my mother Glorian Donegan used to live in. The Arlington Virginia home is in walking distance to may DC area places including the Capital Complex and National Mall of Washington D.C.

This is where information from Col Prouty, Ed Donegan myself, Jen Moore, and public records about my birth and MKULTRA will come into play.

She did not want to be silenced by Stalkers trying to silence her and though she feared it she kept reporting on the elites and their power and how the live and the secrets they have kept about how they rose to power infiltrating the Republic with Free Mason type old-money robber barron tactics.

Treason by Elites and what she allegeed of that using existing documentaton she and others have still online

The Union, Sets, and Subsets of bullying a witness.

Simple harassment (subset H) contains elements. Lew acts of forwardness or displays etc., In some cases it may be a subset of elements to larger conspiracy and that is what Jen Moore alleged. They also coud be a stand alone set of elements that not are part of something larger. (a total set.)

What Ed Donegan and Jen Moore assert is that Subset H (Ed Donegan being stalked by harassers staging toxicity of Ed) is part of Set C (Character assassination and subversion by bullying (Subset H).

The full Set that contains Harassment elements (the subset elements) may include motives and agendas not part of usual harassment-bullying.

In more common events the bully may feel "kicks" the harassing person may derive from simple acts of bullying. That is probably part of the subset of acts.

The set rather than the subset of acts might include incitement attempts of the harasser hoping the bullied person might fight back (feeling wronged) or the Bully has a motive create the appearance the harassed person is in some way a deserving of being treated in a way the victim is being bullied and wishes to make a public showing the bullied person is in the wrong and treated that way.

I call this Set C. Harassment (the subsect of activities) is more laregely Character Assassination motives or incitements element that use the subset elements as a mere tool of the larger plot. The larger plot includes the subset of harassment in public places elements of a vicitm but also includes elements not always associate with simple harassment.

A Union of sets C and W (Witness silencing) are the unknown piece Jen Moore was trying to tell, the backstory of covering up the JFK assassination details (Set W witness silencing) union with Set C Character Assassination by smear campaign (bullying a person as a loser).

W ∪ C Where C ⊇ H is the logic of why a Toxic Smear Campaign of harassment would be launched against a JFK assassination whiste-blower.

If fact for those who set the smear campaign up the high ranking elites Jen Moore asserts the subset H that is harrassing a person with bullying is also in truth a subset of W witness silencing as much as it is a Subet H itself or a part of set C itself Character Assasination.

Several difficulties as the sex-pots and honey-pots are part of the adult entertainer based Midnight Climax operation that attracts willing participants and other profit-motive as the elites in power are defend by the smear campaign KOMPROMAT circles of staged events they set-up to silence critics of the Cabal and their subordinates follow chain of command orders sometimes as dupes.

Subset DM is also a subset of C (Character assassination. Drooling morons working from the character assassination of Ed Donegan pretend to be Ed Donegan and ask for high priced models to help them overcome those attributes subset H created the appearance of, the bullying Ed as as exploiter of others needing sex modeling services to remediate his seeming troubles.

Ed And Jen Moore assert in Set W that elites rose to power in a world-domination conspiracy stood-up by Richard Nixon upon Nixon leaving the Navy in 1946 that along with other influences turned into the Marshall Plan, forming the CIA and recruiting Jimmy Hoffa and others as allies to fight the Left that the Grand Old Party could deny having a role in doing so. Set W contains the Subset that today's elites including Barrack Obama Jr and Willilam Burns are part of the plot as was the Bush and other families.

This looks like a CIA operation. Money Laundering, etc., whose operation are part of funding a smear campaign whose byproduct includes high end escorts and other slush fund operations including a protection racket.

That Slush Fund parasitically feeds of toxifying me by staged appearances and accomplishes the goal of creating organized criminal workings in social control of human trafficking circles and networks.

Ed Donegan and Jen Moore assert Treason is composed of set W (Witness suppression) and set C Character assassination by Organized Crime running a racket fo identity theft and human trafficking laundering fraudulent payout claims based on fabricated facts.

In the operation of Union of C and W the bullies both profit from toxic allegations and profit from the damage to JFK witness the toxic allegations do to the harassed person.

The Protection Racket that is funded and operates by fabricated evidence has enough force-of-arms and elite politician backing to make patsys of people linked to false allegations use force of arms to intimate or fight the patsies.

Turning the table on illegal covert CIA and FBI operations that include organ or stem cell tissue black markets, extortion, blackmail and other CIA black-budget operations.

The programs date back to MKULTRA days and continue in eugenics and genealogy research, surrogate parenting, 3rd party parents, and black markets that people have become addicted to in the underworld.

Many of my books deal with what is now common knowledge about CIA activities including drug running, gun running, midnight climax, assassinations, secret bank accounts and money laundering, large amounts of cash flown around the world in surplus us military cargo planes, brief cases of money chaning hands, call-girl operations tied to elite figures, etc.,

Chauncy Marvin Holt has written on this as have Gene Chip Tatum, Phillip Marshall, and others.

The Nazi Youth Indoctrination was (for a while and not too long into the more serious threats Nazism posed) was the 19-1925 period of Austria where Franz Kutschera (SS General) niece Maria Kutchera became singing coach to (the widowed)Captain Von Trapp children. Maria Kutchera would soon marry Capt Von Trapp formerly of the Austrian U-Boat command and all (who were Great Britain connected) would arrive in North Carolina in a area Dean Rusk (after Rusk left the Rockefeller Fund he managed during the VP Nixon era then Secretary of State under JFK) was in and Glorian Donegan was raised as a child in and adopted from into a DuPont Camden South Carolina home at 9 years old.

Captain VOn TRapp was an Austrian Navy hero and Barron in Aristocracy. His wife was a British decended heir to the Whitehead Torpedo builder and Capt Von Trapp became a navy hero of Austria using those torpedoes in the Uboat he sailed destroying record tonage of enemy shipping. Agatha Whitehead died and Austria had lost its seaports leaving Captain Von Trapp in his villa with children he could not handle alone. The local Convent sent Nazi Noviate who was having troubles and likely pregnant to assist him. Maria Kutschera a singer for a while encouraged Capt Von Trapp and his family to sing as a group and helped meet the challenges but the pressures to sing propaganda at the behest of Franz Kutschera the nun novitiates uncle and caretaker grew to unwelcome. Mary Kutschera the Austrian married Capt Von Trap and they moved to North Carolina eventualy reaching it in 1926 traveling through London and Ed Donegan asserts she gave there to Glorian Donegan and British aristocracy possibly Prince ALbert (King George VI) or Prince Edward (King Edward VIII) impregnated her and FDR and Admiral Halsey the nabal attache along with Joseph Kennedy Sr. helped pull string for them to hide their identities in North Carolina and that is part of the Dondegan story and part of the Kennedy assassination.

The Hidden Identities and Conspiracy Theories around this involved plans for world overthrows and ultimately led into thedeath of JFK though likely at the orders of Allen Dulles.

The story is even darker than that. It was Aristocracy and the Windsor family in particular that was hoping it could regain imperial power (with many backers for that inside the USA) via repairing or managing a biological defect inherited to some offspring in their family with a mix of symptoms I believe originally called Minimal Brain Dysfunction, now FOXP2 and it looks like moodiness and ADHD and Dyslexia components with some other type of symptoms too like handwriting problems. It is not part of retardation but is part of executive control of the brain and amphetamines or Bupropion manage it effectively. Among its effects are creating a sense of well-being and is marketed under a brand name of Wellbutron. It is tied to dopamine chemical reactions within the bran.

The plot to study this defect in bastard children led to Franklin Nebraska Conspiracy of Silence Scandal and many others. What is little known is that during Eugenics testing and studies many DOD Military Families studied by the CIA have August 4th birthdays, November 18, or other dog-whistle free mason connected special days.

Perfecting the image and legacy of Royal lineage was important to the theory of generation aristocracy rather than leaders chosen from among the population and alteration of power.

It sounds like a Conspiracy Theory and it is but she said she was a Truth Teller. As it was noted by the Great Dissenters Holmes and Brandeis in law (and William Colby noted as well) speech is not generally perceived to be threat even when it is wrong unless it does pose a threat and does touch a note of fear in the officials the speech is directed at.

Jen Moore knew telling the truth of these hidden identities including the Donegan's and how that is part of human trafficking was the story now being completed by me Edward Paul Doengan.

On August 12 Pizzagate (abuse of teen females allegedly trafficked at point-of-sale food shops as food in double entendre fraud).It is fraud. "In law, fraud is intentional deception to secure unfair or unlawful gain, or to deprive a victim of a legal right." Wikipedia. But the person (myself) making a food order is undergoing a false allegation that I intended other meanings and that becomes the pretext used by others for fraudulent acts beyond the treating me as though I had second meaning.

First some of the initial reporting on Jen Moore who did not have the DOnegan history nor the details of the Jen Moore story about the Donegan she was about to release nor those trying to suppress the story.

One should be cautious in initial and other reports. People are often connected to things without being linked to them. That is both part of truth and falsity. Connected the often adjoining dots can be a correct or incorrect act. Much of the Clinton talk refers to inner circle DNC operatives however some of them are connected to multiple administrations both DNC and RNC and often involve Clinton less than others.

I Ed Donegan has all the Jen Moore docs or most of them and knows the Defense Intelligence Agency and Mike Flynn and Flynn Jr were about the rumor epicenter once called Pizzagate and that Gritz may without herself knowing it or only knowing part of it may have been a threat to the Deep State I assert is connected to the Defense Intelligence Agency, the #WETDIVISION protecting elite figures like CIA and FBI and DHS figures who themselves are appointed by a succession of Presidents and others connected to Cold War assassination of JFK.

I twas that CIA OSS history including the Barr, Mueller, Bush, Obamam, Rockefeller, Bush and Nixon Ford connections that covered up the JFK assassination and have done so ever since I and I and Jen Moore have the secrets of the hidden identities tied to it and through that tied to the assassination of JFK, RFK, Sunny Bono and others.

One of Donald Trump's aides has lost his job after fanning a conspiracy theory that climaxed at the weekend in gunfire at a pizzeria.

Michael Flynn, 33, left the US president-elect's transition team on Tuesday following his tweets about the so-called Pizzagate fake news story. His father, Michael Flynn Snr (Former Defense Inteligence Agency general and fired by Barrack Obama JR) , Mr Trump's pick to be US national security adviser, has also shared viral hoaxes. -BBC

Vice President Pence is who targeted Flynn Jr. for the tweets.

Until #Pizzagate proven to be false, it'll remain a story. The left seems to forget #PodestaEmails and the many "coincidences" tied to it.- Michael G Flynn @mflynnJR

The alleged Pizza-gate scandal began in Arlington Virginia near the Pentagon and with at least one Methodist church who built a "Legend" by parading actors some event was happening when in fact it was onoy being acted-out by Shills, people recurred to do so. The reason for the program are several layers deep but are a form of black-opps COINTELPRO.

Other deaths are connected to it other than Jen Moore and I will work backward in time for what Flynn Jr called coincidences and explaining them but before I do that I anm going to explain what Jen Moore was saying and why this is the Donegan story.

In 2014 the book Self-Portrait of a Scoundrel came out with extensive documents in the last chapter showing the validity of Chauncey Holt' claim he was one of the Hobos at Operation Mongoose that killed JFK without his foreknowledge. He and Oswald probably thought a fake Cuban sympathizer trying to kill a popular US President with an unworkable rifle only a Communist could afford would make communists look bad to the public.

St. John Hunt has released his books (like other books about the Bush family) largely unnoticed and more journalists like Jen Moore and Phillip Marshall (the Big Bamboozle) are being silenced.

FOr now let me say my father and the CIA were flying together at ATSUGI and fairly obviously Kennedy connected and I myself met COl Prouty as a Donegan family friend.

This story is dynamite to public officials. if the truth comes out I think people like Bush, Obama, William Burns, Mueller, and others could die for treason in accordance with and through US legal procedures.

What Ed Donegan, Jen Moore, and Tom Dunham Gathered Evidence Jen Moore was assassinated over

Before I left for California and first Capitola then Stay and Play nearby the Protection Racket was already usign high priced adult entertainers in a sluch fund money laundering racket. But I was completing my documentation on it and it would soon (with Jen Moore coorborating the evidence and my Edward Paul Donegan's story) the protection racket might have come crashing down but the lure of running this in Stay and Play further motivated the criminal ambitions of the Protection Racket and they silenced Jen Moore at that time.

The Praetorian Guard was a fixture of the imperial era, but their origins date back to groups of elite soldiers that protected generals during the Roman Republic. https://www.history.com/news/8-things-you-may-not-know-about-the-praetorian-guard

Jim Garrison (and without using the term Lisa Pease long-time writer with James DiEugenio and sometimes forward by Oliver Stone) speak of this deep-date gaurd or Cabal that operates even inside the US media and can control both information and disinformation and uses covert acts including Secret Police forces. (see the linked article about about the Praetorian Gaurd.)

Jim Garrison who uses the term in his book On The Trail of The Assassins likely got the term (like most information he had) from Col Fletcher Prouty who specialized in assassinations and regime changes and creating Coup d'états that utilized strong-man generals as was done in Banana Republic the USA setup through the CIA and Pentagon in conjunction with front companies like United Fruit Company.

Clarence Crane saw a machine pharmacies used to make pills that were round and wafer-shaped, and thought he'd use those to make mints, which at the time were made square (because they were pressed in sheets and then sliced into squares). The machinery could also punch a hole in the center, and Crane named the candy after its resulting life preserver shape. The poolside mint was didn't melt like chocolates did.

Let's assume now the mints are the same shape but metal and this is how our chain of facts will link together and when done with the component ring in place and in historical order will show truth and light the bulb. At the earliest part of history will be the "minus" sign for going back furthest into history and the "plus" sign the cloest into the future the chain of events is progressing towards. In fact it work well (the analogy) a a battery that his stages in it like stages of a rocket.

All of these events will occur with the British and old money power as the Praetorian Guard that gets the Kennedy's out of the way and uses old money like Averell Harriman, JP Morgan, Rockefeller, the Walker family (George Herbert Walk Bsuh), the Bush family, and others as the including the Burns family, Mueller family, Barr family, the Wray family, and others did.

- In 1926 Maria Kutschera the Nazi Nun Novitiate niece of Franz Kutschera is pregnant and leaves the Convent for the Capt. Barron Von Trapp who briefly sang for Nazis under Maria Kutchera but the left Austria in 1926 shortly after doing so. She is played by Julie Andrews an English actress is a very friendly way.

- In 1926 in England Princess Elizibeth George V (the Albert of York is recovering from the 1925 public speech disaster. Also born are (in the USA with Jospeh Kennedy Sr and Admiral Halsey and FDR help) Norma Jean and Glorian Gainey.

- In 1949 Post WWII planning Great Brittian and Old Money under Averall Hariman in Paris put together world domination plans. Fights for Indonesia, Guatamala, and other nations are expected after colonialism lost those states to independence. The CIA is

formed to replace the OSS of WWII and Democrat Party Harry S. Truman is hesitant and lukewarm as to cover operations and wants mostly intel information.

- 1951 10 1961 Plans under Vice President Nixon and the NSC for overthrowing countries inlcuding Indonesia and Cuba. Kennedy begins to reject the plans but is assasinated as his brother RFK is later.

- Maclcom X is assassinated in 1965 and the birth of Barrack Obama Jr with Stanely Ann Dunham holding Obama Jr is of interest to him (Malcom X) who pusblishes photos in his magazine. Some speculate he or Marilyn Monroe or both were asked to help provide a cover-identity for Barrack Obama Jr. should the CIA wish to give him "celebrity" family legend. Kenya public figure Barrack Obama Sr. is said to be the father but the CIA may not have been certain what story-line it wanted early on nor could it rely on how much continuing coooperation they could get from celebrities they were asking for help.

- In 1968 Dr Martin Luther King is assassinated by a loyalist to Great Britians imperialism. He is caught in England he had fled to and is tried and convicted in the USA. Robert F. Kennedy is assasinated that year and likely was in the White House when Obama Jr was taken from the plane coming back from Santa Monicy and brought by the USAF person in the photo. Who was that in real life?

- 1972 and on. Committees try to piece together the facts. George H.W. Bush follows LBJ into power but it seems both were tied to assassination JFK.

- Barrack Obama Jr and others planned by the CIA move into power supported by big business that planned for their rise to power.

- I Ed Donegan assert DNA from the Donegans were used in the genetic testig that produced Barrack Obama Jr. and that Barrack Obama Jr. was born without real parents in the marriage sense and was then moved to just then staring Trinity Baptist Church in Chicago where overthrows had been planned from.

- Jen Moore and Ed Donegan assert the hidden identity of Glorian Donegan is of interest to high ranking officials and that the DNA is still black-marketed after claims to the rights to the DNA is by fabricated evidence rather than the truth.

The Franklin coverup/child abuse ring demands Congressional investigation and appointment of a Special Federal Investigator. Nothing less will lay to rest these shocking and apparently valid charges.

Evidence Links Bush To The Omaha Child Abuse Ring

There is extraordinary evidence linking President George Bush to the Omaha child abuse ring. We balanced this evidence against the possibility of fabrication in an election year. If true the evidence will finish Bush as a political figure for all time. If not true it is an injustice of the gravest nature.

What we decided to do is present part of the evidence that links Mr. Bush in some manner, incidental or significant to the scandal and allow you, the reader, to make conclusions.

The naive will suggest that surely Democratic participants in the on going Presidential election would use this evidence against Mr. Bush. Unfortunately Democratic nominee Bill Clinton (also a Yale graduate) has skeletons in the closet, not the least being the Mena affair in which Clinton, as governor of Arkansas, reportedly covered up Bush/CIA misdeeds in Arkansas.

In any event we have copies and partial copies of documents originating within the State of Nebraska. Some documents came from Australia. They could be forged. We do not have notarized copies. That is why a Federal Special Investigator is necessary. We believe them to be authentic.

We hold no brief for Mr. Bush. We have a decade long record of criticizing Bush and his links to the Yale secret society Skull and Bones with satanic features.

However we always criticize on the basis of accurate and verifiable evidence and we have no intention of changing this policy.

There follows documents linking President Bush to the satanic-pedophilic ring. We then reproduce an assessment made 15 years ago on the satanic aspects of Skull and Bones. This last information is apparently not known to the Nebraska accusers but is circumstantial support for their charges. You be the judge.

Caradori's Airplane 'Broke Up in Flight'

By Robert Dorr
and Gabriella Stern
World-Herald Staff Writers

The small plane that carried Lincoln private detective Gary Caradori and his 8-year-old son to their deaths in Illinois early Wednesday apparently broke up in flight, two investigators said Wednesday.

"It was a scattered wreckage pattern," said Bill Bruce, an investigator with the National Transportation Safety Board. "It certainly demonstrates that it did break up in flight. The exact mechanism of the breakup is unknown."

Sheriff Tim Bivins of Lee County, Ill., who spent 12 hours at the crash site, said he didn't think an explosion occurred while the plane was in the air. He said he thought the plane "came apart in the air" and exploded on impact. Bivins said plane debris was scattered over an area three-quarters of a mile long.

Caradori was the private investigator looking into allegations of child sexual abuse for the Legislature's Franklin Credit Union committee. The committee is investigating matters related to the 1988 failure of Omaha's Franklin Community Federal Credit Union. Caradori worked for the committee.

Caradori, 41, and his son, Andrew, died on their way back to Lincoln after attending the Tuesday night All-Star Game in Chicago. Caradori was piloting the plane, which left Chicago early Wednesday morning.

Gary Caradori . . . He and his son were on way home to Lincoln from Chicago.

The collage of photos is 600px res but can be zoomed in on for closer look

The writing on the wall in this compressed storyline from 1961 to 1963 is that liekly palnned in the 1950's and Indonesian sleeper agent will be groomed. A test birth from that Atomic bomb era will be used and Tom Glorian and Ed are on the wall showing invitro fertilizaiotoin and surrogacy. The fertilization occured on Feb 20 1961. Noember 18 was the real births and birth certificate November 19, 1961 and by 1963 Eddie the baby was stuck in deep freeze (or Ed Donegan in special ed preschool for years) missing part of his brain and unstanle but Rocky is fine. This leads to a dispute JFK is assasinated over as sympathy existed for Eddie. How in Manchurian Candidate 1962 Dr Lo asks can one tell who will be succesful and not" What tests so early on will work?. Little Albert tests

In this photo: Eddie comes out of the sperm bank on motorcycle without a prefrontal cortex (his brain was spit between the Rocky and him) as is assassinated. Is the Rich Wierdo based on the real life story of Peter Lawford by John Frankenhiemer? Did Marylin Monroe know too much about the CIA plans and MKULTRA? Did RFFK find out too much?

Edward Paul Donegan was rarely (unless he focused and worked very hard) at risk for knowing too much. As an amphetamine addict I was diagnosed with ADHD in Summit Merrit Peralta Rehab. The clinical workers notices I show more rather than less AHDH behavior as the days of being clean went by during the 30 days. Wellbutrion worked fine. Amphetamines increase the activity in the prefrontal cortex allowing the brain to better regulate itself and stick to tasks.

During this treatment I did learn enormous amounts I did not learn in AA. Among those things was the term proffesionals use for 12 step and other types of peer meetings. "Community Recovery." What I have learned of Gang Stalks is they are community based hostility. Under some guidance like an FBI agent or US Marshall or magistrate under-cover operations invovle those in the vicinity of the person being stalked. Often they are told the stalked person is a terrorist, etc.,

In this photo was the British Actor Peter Lawford's home constructed with a spiral staicase or walk similar to the Queens House in London?

Arnold Schwartzenegger, Peter Lawford, the Rat Pack, Sargent Shriver of the Peace Corps, are part of this JFK history in the Santa Monica Manhattan Beach Venice Beach area and I think tied to JFKs visit Novermber 18 November 19 1961 and test birth(s) under the Manhattan Project. What is the focus is Marilyn Monroe, Peter Lawford and Patricia Kennedy home that JFK and others stayed at at the time I was born, and my family of origin home in Manhattan Beach and one year later McMartic Preschool 1962 seeking a permit on the lot nearby.

A bookend piece on Edward Paul Donegan III my being a descendent of a King Edward via a Rodin sendup called Rheinhold's Affe mit Schädel and a few days after my birthday these two statues in my home, one in the Whitehouse

In this photo: Donald Barr just after November 18, 1961 holds and experimental monkey just flown back from somewhere now in the Whitehouse. The photo is dated November 23, 1961 and I suggest this is part of large scale conspiracy and yet one more fake birth certificate this one for Los Angeles area that was destroyed before it was found but had fake information too. A cover story was being created though and involved CIA operations with Marilyn Monroe, Peter Lawford, The Manchurian Candidate (1962 film) The screenplay is by George Axelrod, based on the 1959 Richard Condon novel The Manchurian Candidate. The film's leading actors are Frank Sinatra, Laurence ... I assert RFK was killed in Los Angeles as he found out the death of JFK was tied to this Manchurian Candidate story.

THE YOUNG LISTENER

This edition of ***Muhammad Speaks***, dated April 1962, has a front page caption that reads:

"More than 12,000 people on February 23 gathered in Chicago's International Amphitheater to hear Messenger Elijah Muhammad speak on *The Future Of The American So-called Negroes*."

Inside the newspaper, on page 18, **Ann and baby Barack are placed just below, to the left of a photo of Malcolm X** with the caption "The Young Listened".

Notes: I Ed Donegan has a friend Fuzzy Bunny aka Kevin Connor.
Fuzzy Bunny references elswhere being a law enforcement and specifically seeming Marshall.
Usually the teams impersonating Ed Donegan to put my DNA on black market human trafficking uses something tied to identity such as one person in the group uses a friend of mines identity falsly such I seem to be with my old friends, though all impersonated together, not any real identies. #2009 Gunderson, Ed.

In this photo: https://fightingmonarch.com/2019/12/20/v2k-the-true-story-of-the-kings-speech/ I was there at Reagan National Airport loyal to the USA and veteran families like my own. Because of my parents history of long ago CIA history the USA has tured on me inventing excuses. The Kings Speech and my similar pathology of problems of King Albert is what the secret CIA research and activities have been in regards to, out of wedlock births not on birth certificates but biologically connected to other families with the disease path.

The writer impersonating Ed Donegan appears to have done so to discourage protecting kids. selectquotereview.com/2015/10/impost...
